1 Beat: OMG I have lost everything

I have been a lurker for 2 years here learning and now I want to share my story..

I first started playing poker on pacific poker at 5/c/10c with my bankroll 25 dollars. I built up to 50 dollars and then I deposited more money after I lost everything because my wife called me a prick one day I was in the middle of hand. I have done some crazy things when on tilt. I used to take my girlfriends hairbrush and bite down on it everytime I lose and and make a "urghhhhh" noise. One day I caught my reflection in mirror and scared myself. I wondered if I was possessed.

Fast forward to recently, I had just managed to secure a job at a department store and was happy to get the job but I thought of nothing but poker everyday. I wanted to be a big star and make massive money so after being there three weeks I started to rob the place. I would take \$1000 dollars a week from the other cash register and steal shirts and jeans and sell them on ebay. I soon had saved up \$19 000 and I put this on fulltilt. me and the other guy both got fired cus they couldnt prove it. I told the other guy he is a bad friend to cover tracks.

I started playing 2/4 dollar game at first and I was winning so good I read the book called theory of poker and signed up to cardrunners which I thought helped me so much I wore sunglasses because of eyestrain and played 8 tables. I soon made \$13523 dollars and bought my girl a poodle. I moved up to 5/10 when I had 80 buy-in and I crushed all the regulars on full tilt.

I felt like I was invincible. I eat and slept poker. I had dreams about full houses and big pairs. one time I had a dream about a woman and her breasts turned into KK and I said "I call, I call your tits." I was distressed so i told my girlfriend and she got mad over a dream???? I started to move up and play the odd 6 handed 25/50nl game on betfair. I started out running really good and then it happened! I lost 10 buy ins to disgusting beats!!! 2 outer, 3 outer, 1 outer OMGZZZZ. I would flop top 2 pair guy would push all in with flush draw i'd call and I was losing 93% percent in these situations. I was so mad that I punched my monitor and now it fades to a million pixels and to keep it on I have to hold it with my finger and thumb I managed to get a peg to save finger strain but I was so mad that I called my girlfriend a "troll face" and she went to live with her mom, but she didn't take the dog and the dog was not even house trained ,it kept pissing everywhere, I got major tilted.

[illegible]

called my friend john and asked to borrow 5k and he thought I was crazy...5k cmon, 5k is nothing to a poker player john you idiot!!!!!!

I couldnt get any money, I just wanted back in the game, I walked outside and it was raining and I seriously blubbed like a child. I was so angry with myself, maybe it was karma for the department store. Then I did the most inforigivable thing. I sold my girlfriends poodle for 8 buy ins at 50nl and I started to grind that **** out. when my girlfriend got home she asked where the dog was and I said that it ran away and she freaked out and asked why I didnt go look, I said I looked round the house for it and in the backyard but it probably wanted to live in the country in its natural habitats. She went NUTS and started hitting me and thats when I squashed her face up against the window I know I shouldnt have done but I was so MAD!!!!!!!!!! I mean why couldnt she understand how a man feels when he ahs to drop from \$25/50 to 50c games...omg I am so mad thinking about it... so anyways, she said she was leaving and I said "go then u fat sloth puppet", (she is fat) and she cried, I didnt give a ****..I was really angry at this point and wanted to prove just how mad so I ripped her dress and the stuffed it down the toilet, she said she hated me " you needle dick idiot" and she left and I seriously thought about throwing a milk bottle at her ass but instead I threw a slipper at her car..then I I went inside and tripped pover the coffee table and smashed a mirror with a picture frame. I started 5 tabling 50nl..I won a few buy ins and I felt like I could turn this all around..but then I lost most of it I was so mad I went to the 1000nl OmahaHi/lo and called david benyamine rude things

The next day I felt poker and numbed my brain like too much drugs, I felt like I was in a haze of poker, an alice in wonderland world and I almost felt like I was gripped by a wild fever which had been poker for as, long as I could remember. I added it up and poker had been my life now for 8 years! I hadn't missed a day playing poker in 8 years! I was addicted and justified by calling it my job..I must say I played a very balanced game until right at the end, but I was miserable for a large percentile of those 8 years which chnaged from day to day and week to week despite the money. Today I sat there shivering in a blanket playing 2 tables of 50nl and I started thinking about how I was a shadow of the man I used to be..I was the most miderable I had ever been, even worse than when i had terrible acne. I felt it was all due to poker and how it destroyed me and took everything from me including my woman and my poodle..

I went busto today and I am never playing poker again.

GG.

2 Beat: my girlfriend came back and I lose more money

Man, I don't believe the last few days i've had. I said i'd never play poker again but I went to sleep and woke up like I had to get back in action. I found some collectable items (action man) and got 99 dollars each for 2 still in their boxes, the guy haggled a dollar, I figured I would either load up 4 tables of 50nl or look around the house for more stuff to sell. My girl has a nice mirror and exercise bike so I put them out on the front lawn with a sign saying "you want? Cash" and I couldn't believe when a few hours later some lady with massive earrings and a chihuahua showed up and offered me 300 bucks! I was like mentally working out how many buy ins that was at 50nl.

So the next day, i'm feeling better about life even though I lost around 138k because at least I got a roll now so decided to order pizza and play some hands. I played all afternoon and just broke even, but then arounds 8pm I was back to 745 dollars..while I was playing I started thinking about how far behind my original amount I was so I was like **** it!,lets crank it up to some 1/2. I ran like rats. OMGGGGGGGGDZZZZZZZZZZZZ I flopped a wheel and that **** fell off by the river. I was so angry I picked up one of my binders that I keep some old papers in and hit my head with it numerous times while calling myself degrading things.

I decided to take a break because I was shaking a little. I kept imagining that smug grin of phil galfond and I got really tilted. I decided to watch some porno which was a really bad decision. While I was watvhing it my girlfriend came back "to talk" and I didn;t hear her come in. I was jacking it when she walked in, and it was a crazy japanese hentai porn and am sure I was groaning a little, and this cartoon guy was about to ejaculate when he started shouting and turned into some space rocket and im like thinking WTF, but I still know im going to come (really embarrassing) then my girl called my name so I stood up with mess all over me I tripped over my boxers and I have no clue why but I just blurted out "porn is not poker!" and pulled my shorts up.

my Girlfriend was like "OMGZZZ i cant believe I come all the way back here to see you and you are sitting there watching ungoldy things on the internet and disrespecting me!!" I was like wtfff...this is my ****ing house you are insane arent you troll? She picks up a remote and threw that **** right at me and it hit my wireless mouse and the battery flew out ad im thinking oh**** how am i gonna multitask if she broke it... I was so maddddd, comparable to 2 outer for 12k.

I lunged at her and missed her with my elbow, then she brought up that I lost her poodle im like that was so long ago! I said git out but she wouldnt leave, cus she wanted her stuff She noticed the mirror and I had to tell her some lie about feng shui and how I left the bike somewhere but my memory was impaired...so she starts blubbing and I said "all u do is cryyyyyy u havent even lost any parents!!!!!!!!!" (she hasnt) and omgz she went BAT **** CRAZY and came at me, she got really close to my face and that is the first time that I noticed her nose hairs..please dont judge me I dont know why I did this, but I was so mad that I ripped off a giant lampshade and stuck that **** on her head..OMGZ she is still here upstairs hopefully packing stuff and I want her out...I need to get back to 25nl I got grind on the mind

3 BEAT: OMG TOTALLY BUSTO. Rock Bottom.

[illegible][illegible][illegible]

Next thing you know there are headlights pulling up on the driveway, its 4 39 am WTFEEEEEEEEEEEEEEEEEE. its gotta be the cops!!!, nope its fatty mc fat fat, her papa showed up and im thinking she is a catergorical lie bag bitch. He comes walking up to the door and I dont know why I did this but I switched off the light (probably a bad idea) hid under the table in the office hoping he would go away....he knocked again much louder and I was thinking that I wished I was on the roof to drop something on his head like my girlfriend.. So Im hiding in the office and eventually my girl comes downstairs and I hear them talking he sees the mark on her neck ndsays he he says "DID HE DO THAt???!?!" and she didnt say anything, she like changes the subject like a teasy bitch!!!!!! WTFEEEEEEEEEEEEEEEEEEEEEE, how can you sit on the fence about strangling yourself????? I shout through the door that his daughter is a crazy mental bitch who tried to kill herself probably over a

poodle and thats when he hears where I am and shes like "no daddy dont" and hes like" HAS HE FORCIBLY ENTERED YOU?" Im like "WTF" and shes like "No daddy nooo", but not even her largely obese frame could hold him back .. im quite scared at this point because he is fat and slow but a cunning fat person. He starts barging the door and i'm counting my outs. he called me a tinweasel? IM thinking WT****ING HELL..... This king ralph looking mofo is dissing me???? ,

Im mad now and ready to go like a red rag to a bull.. and ready to fight them both even though I promised never to hit a woman, but after everything she put me through I decide to yell that I i sold her poodle for poontang..at this point he breaks the door down with a grunt and im sure he farted with the exertion..I was disgusted. we were heads up and as far as I was concerned I was raising even without the button. I step to him and I throw a left that misses and he hits me with a right, but he was really sluggish and I managed to catch him with a haymaker and thats when he did the most ridiculously looking roundhouse kick for a fat person I have ever seen...I catch his leg and spin him around...I decided as this point that a fist fight was probably -EV because of his flab and my small fists so I decided to **** him up with a paper weight(which I did) It only took 4 hits to the head for him to be flat on the floor and then I sat on his back and glouged his eyes out im like "THIS IS HOW BUSTO FEELS"..hes like screaming louder than his daughter at this point " CALLLLLLLL THE SHERIFF"..thats when my girlfriend hit me on the ****ing head with somethign, I aint know what that **** was but it made a loud BONG noise, I turn around and I really dont know why I did this but I kicked her in the pu\$\$y,,,OMGZZZ I WAS SO ****ING MAD I SAID OKKKK, THATS IT..U EITHER STAKE ME, LET ME HAVE YOUR BANK ACCOUNT SO I CAN BONUS WHORE OR I WILL KILL YOUR FATHER...SHE DOESNT EVEN KNOW WHAT BONUS WHORING is????....I EXPLAIN I NEED NEW POKER ACCOUnTs to get the bonuses why dont u understand??????

She says "NO" because I spent all her money once before I TRY to explain its different because its basically like getting rakeback for a month but she still dont get it, no college degree having bitch.. im like razz would suit you bitch.. so I go upstairs and I dont know why id did this i think maybe it was maybe because variance had never been so cruel to me the most ridisculous swongs ever worse than brian townsend and gus hansen put together so Im thinking of complete dark thoughts I go upstairs and sit there and stare at a piece of wall paper vaguely aware I am dribbling and then i set fire to myselfI woke up in ER with 33% (flush draw) burns the DR told me I was lucky to be here or some uplifting ****, all I could think about was being busto...

5 Beat: Busto and my Girl Wont Stake Me

I am feeling so empty right now—my girl won't give me any cash, (she says she's broke) she's a liar ..a fat liar her dad can go **** a barnyard animal. He hates me cus im a poker player and im "no good for his daughter" im like shes no good for me cant u see how fat she is and how fat she will become? Shut him right up, plus I said if he didn't treat me nicer I would talk her into leaving his fat ass in this state, then who's gonna take his sheep to market???? Ahahahahah. OWNED.

Cus my g/f is pregnant she thinks she can order me around??? Im like no bitch, go get your own *****g pickles. What kinda psycho-hose-beast wants a ****ing pickle. Shes like "awww, but ive got a craving, then bursts into tears im like WTF don't try that **** on me, my father never hugged me. Im like look, gimme \$75 so I can get us back living the high life ON FT, shes like whats FT, im like "SAY IM A STUPID BITCH" shes like "I hate you...i hate you...i ha" then she did this weird grunt fell over sideways on the couch and did this really loud sobs that bellowed out into the house. I was thinking she sounded like a water buffalo or perhaps a hittototamus but I didn't want to make her more mad until I had got me a bankroll (atleast 25nl im not playing with the crotch monkeys) So Im like just give me 300 for poker and through her tears and red eyes shes like thats how we ended up in this mess we aren't even gonna be able to afford formula when the baby comes im like but you have big tits and can breast feed till the baby is old enough to eat spaghetti...she started blubbing again, she said I can have 25 but thats all she got, im like WTF cant do **** with 25, shes like thats all I got im like **** you then i'll make my own money and sell some body organs, so I go google that Shi* (apparently cant sell eyes but check this shi* out... After reading yesterday's Herald on the call by a Canberra specialist to legalise the sale of kidneys in Australia, Mr Gill, 44, called the paper, seeking to place an advertisement for one of his kidneys for \$50,000.

IM like whoaaaa, thats nosebleeds, noseeeeeeebleeds and I start getting excited and my girl asks whats the fuss, im like don't talk to me while I play poker. So a bad day turned out quite good, hopefully will have 50k soon,and finally have a roll I can be proud of..i went upstairs about 4am and my girl was snoring but I tried my luck she was like EWWWWWWWWWWWWWWw U stink just cus I aintt showered in mad long she said I smell "musty" Im like you should smell your pu**y. I went to sleep with grind on the mind

7 BEAT:Someone wants to sell me like a slave

I cannot take much more of this. I was approached by some guy a scammer probably, he sounded respectable, but his voice over the phone made me think he probably put his fingers in offensive places. I didnt share the information. he said I should blog and he would give me cents, IM LIKE WTTTTTTTTTTTTTTTTTTTT I need to be up in the high stakes cus iv'e got grind on the mind, he said I could maybe earn enough to get to 10nl, I am so desperate that I said ok.

He said I have to post my story so far! Im like wtf, he wants to shame me I think Then he said he wants to follow my poker career and he might stake me for a WSOP even or a 22\$ sit n go, . How are these two the same? I am kind of sad tonight because I have a story about my kidney but I cannot post it for a few weeks. I have to keep a diary now. Can I have your support? I dont expect anyone to stake me, but this is my only refuge from my fat girlfriend, her dad and my poker demons. How else am I to build a roll if it turns out I cant sell my kidney? I do love poker really I do. I hate the fact that My existence and shame will be projected into the weblog, but Im doing this for poker and am gonna get to the nosebleedsssss

9 I think that poker will get huger

no way the goverment can stop us!

I can see poker becoming like american football one day and maybe an olympic sport.. the olympics of the mind! my fat girlfriend said no way i said what the**ck do you know we had a fight about it I told her that poker is the only card game where its upto you if you win and she said well why dont you win..I explained about B/M management she glazed over or whatever (shes pregnant and is craving pickles so she makes no ***** sense.

so do you think this should be an olympic sport like diving? I treat poker like I am an athlete or gladiator but im also lazy so I imagine most of it it helps me feel like I am actually keeping my mind and body right for poker and most of poker is mental and i imagine lots of things in a day.

If poker does become a olympic sport I would like to be in the team and then I can play the heads-up final and durrrr can be in a back room watching my whole cards on a monitor and then he agrees with my plays and when I go back stage after we win gold against tony g who hates russians I give him a bit of a hug and we say friends forever.

I wanted to type a little bit about how big poker is going to get in china but my fat girlfriend keeps shouting at me omgggg it makes me cringe to hear her deep hoarse voice ring out like a siberian huskie and the way she coughs with the loose spit coming up all the time all she does is eat icecream yet she says i play too much poker and could get a blood clot im like what about clotted cream Bj***

10 Does poker make you moody?

FFS sometimes its like no matter what u always run into a f***** hand and it feels like the person is personally trying to *** you up on a personal level and get in your head and it just makes me sick..poker has a habit of *uck*** up my day..u cant really distance yourself except for quitting... i lose a few buy ins to a runner runner or someone keeps flushing and hitting and it just makes me moody and then i think afterwards why the hell do i play if the swings just make me moody all the fricken time..damn...i used to crush higher limits and now im in the dust trying to find a few nuts,,,my fat girlfriend says I am always in a mood unless I have a winning day....sick..this game is destroying my piece of mind

12 Beat: Built my bankroll to 1798 and its all gone

OMGGGGGGGGGGGGGGGGGG I feel like roadkill right now or some kind of ruptured intestine..I am sitting here broke and thats all ive got to fu**ing show for my night of grinding. my fat girlfriend goes out with her chicken head friends to some party where they pass around glass dicks and giggle or some shi* i dont give a Fuc* about that, she is gone and ive got grind on the mind..so im torn between holdem and omaha well lately ive been bored of my bread and butter game holdem cus i get sick of fold fold fold what a waste of life so i think hell yea ill play some omaha and try not to keep from screwing up worse than brian towsend, damn that guys eyebrows tilt the shi* outta me..so anyway my roll is nearly 2k so I think ok play it safe with 2 5/10 tables, 798 in one and the 1k in the other. I have a line of coke a beer and some cough medicine and im ready to go

First up I get AA76, I think ok lets raise this bitch up and I do and he re raises and get called flop comes 267, I bet the pot, what else am i gonna do, build the pot and run???????? he ****in calls, 8 comes, my heart starts beating and im shaking like a *****!ng dog i mean ive got serious palpitations at this point, Ibet again he goes all in I call and hes got KK910

WTFF, hows he gonna re raise me pre flop with my image, everyone knows im gonna have it, im so ****in pissed at this point I feel like omaha just smeared dogshi* all over my face...omg I was crusing towards the nosebleeds and I have to a backtarck yet again, I immediately sit out on the other table with 756 dollars and i try to do some yoga breathing exercises to calm my ass down, my head tells me to step down my heart says **** that you pussy, you gotta double up like your life depends on it but im playing like some scared ferret cus this money is supposed to buy my g/fs christmas presents I said id get her some snowflake earrings, earrings look wack on on her cus she kinda looks butch so it makes her look like a man with weird feminine ears but I keep this in my head like when she scares me with lipstick I feel weird kissing her face because she reminds me of some kind of motorbiker man with red lips, i have to close my eyes and think of America...I think **** it i'll double up and leave and step down..

so im playing a few hands and im nervous, and i wonder whether poker can cause heart attacks and thats when my fat girlfriend comes home with about 4 of her friends and they are all drunk and giggling..I am trying to grind for ****s sake..she sees me playing poker and she looks at me like I just ***** in her shoes i give her a look like **** you bitch this is my house get in your kennel..so anyway one of her friends says "oooooooooooo poker" and starts looking over my shoulder some skinny frail bitch with an annoying accent caked in makeup, she says shes a pokerstars reg im like whatever this is serious..she starts giving me f***ing strat advice on omaha??????????????

WTFFFFFFFFFFFFFFFFFFFFFFFFFFFFFFFFFF im like trying to be polite so im like look ive probably played more hands than youve had hot dicks and she shuts up a little bit. So I get dealt K276 two diamonds and I can't concentrate cus of the ****ng coven behind me! the flop comes 5 8 10,, 2 diamonds. Guy bets the pot, I raise hoping he folds or builds the pot and i hit..a diamond comes on the turn, the J, and he bets the pot again, I slide my slider to all in and this dumb ass bitch is like "HMMMMMMM, the second nuts is hardly ever good in omaha", I am so ****ng tilted at this point I click "all in" and he flips over the nut flush A 7 9 2 and

omgg I dont know why I did this, I feel crazy now,
but I stood up and punched my g/fs friend right in the face and called her a trash bag
bitch.....The whole room froze and looked at me and this woman was on the floor with her legs in
the air my girlfriend went ****ing crazy and came running at me, well she was kind of waddling
and i distinctly remember how her legs rubbed together and she swung for me and caught me with
her long ass finger nail, I got so madd, im like "get your dildo loving skanks outta my damn house"
shes like "tell me you still have money for christmas!!!!!!!" in a loud scream that went right to the
bone... im so ****ing mad at this point im like no earrings for you bitch...her friends think im
scum, they said im scum, I heard them as they all walked out..chatter bag bitches

I felt so ashamed and I was just sitting on my own in a room looking at my bankroll of 23cents with 226 FTPS which makes me feel so depressed. I just sat there and punched myself repeatedly in the leg saying "ow.....ow.....ow" kind of robotically, and it did not make me feel much better. I have basically just ruined christmas, my g/f hates me and now her friends hate me, I have no roll (AGAIN) and on top of that as I hung my head in despair, I smelt the pungent smell of piss and a slight smell of sweat and **** coming from my crotch area

the girl who I punched in the face had to have a nosejob and I feel bad about that two or three days later I did fall over in the backyard and hit my head on a rock so I hope that was my karma..this thread brings me a lot of pain to remember it..I felt on top of the world that night till those bitches came round and spoilt my fun..they think that the best thing in the world is sipping corona and talking about dicks and how they think their man is a total loser but they stay with him because he brings home 30k a year..get your own ****ing job you damn skank why you gotta be a thief in the night you think your big hairy pussy is some consolation to us..no no no no .. god this thread sent me on tilt just reading it again..I want to go and slap a monkey

I should have taken that 1798 and played 10/20nl 6 handed instead of playing omaha like a damn sheep with dingleberries around the ass hole

next time I get 2k I'm not gonna **** around with bankroll management

13 Brag: revenge on fat girlfriend and friends and \$55

WTF, i thought id seen the last of my fat girlfriend and her clan of binge drinking skanks but nooooooooooooooooooooo, she has to call the house in her drunk state (which i think should a ***** level considering she is pregnant), all her friends are cussing me in the background, and im thinking that I wish I could bring a portcullis down on them all in a row, and I had visions of blowing them up that involved a bottle of gin and some gas. one of them called me 'devient" I looked that shi* up on dictionary.com and it tilted me hard. Im like cut me some slacbitch, shes like "why", always asking "why" about everything, "why" my toe nails are found in cups . "why" i grab my balls in public. "why" i leave my pubes in curly bunches on the window ledge. "why" i wanna jerk it instead of make love to her?? maybe I should give her a mirror for christmas and a picture of my flaccid penis.

She starts saying how I overstepped the mark, gone way 2 far this time, no going back and i nearly broke her friends nose and I need to make it upto her big time???????????WTF???????????? and shes like my daddy will killl youuu, im like porky tried that last time and the tubby train got derailed with the quickness, plus I have been watching youtube videos on self defense by brett kaywood....im like no bitch you need to take your fat ass back to school to support that baby cus im not and walmart wont keep you in the cakes youve become accustomed to..she just gasped after i said it which was actually a normal breath for her.

she starts getting really emo at this point and claims she could go into labor 6 months early cus of stress ive caused and ive hurt her so bad and her friends she said she felt like her heart had been ripped out and stomped on..Im like thats nothing, I lost over \$1500 last night.. then I said id say sorry if one of her friends sent me 50 dollars on full tilt, and she said started shouting poker this poker that, thats all i think of im a loser, I say send me 50 dollars and ill say sorry to everyone!!! she said nobody there had a poker account, im like send that **** on stars, I know that skeletor bitch got the funds..

she made some lame excuse about me punching her face why would she do that, I tell her that I want 50 bucks on full tilt or I am going to do something bad..shes like what, what are yo going to dooooooooooooooooooooo??? im like i dont know but it involves chopping parts off of me. She fuc*in* freaks at this point cus she has seen me in the past set spells on myself and burn myself with cigs when I make a bad all in call or fail to go deep in tournaments

..She said she would give me 50 dollars on her card if I apologise and dont do nothing stoopid, im like ok bitch read me the visa and dont forget the 3 digit strip number im gonna bonus hunt these 55 bones!, shes like 55?? im like thats what I said you hard of hearing bitch? she let me deposit the cash on the the promise I apologize to al her friends..I hear her friends trying to comfort her saying she dont need my ass and she should find a new man who was sensitive to her needs which basically meant who would buy her a double whopper on the way home from work the slave to obesity..her friends are like LOSERRRRRRRRRR, and BASTARDDDD, and start callin me all kinds of crap...half of those bitches have gone through 3 divorces and are way past it, pre menopausal bicthes and will go out on the town to suck any **** they can get hold of thinkin they are all that and a bag of bling plus they all have cellulite hangin out of the ass and more baggage than clarice in silence of the lams.

but I get that euphoric feeling when it says DEPOSIT ACCEPTED I know youunderstand..only a grinder can... i felt like i had fairies flying outa my a55hole but want to hang up as quickly as possible cus i feel like hot pockets and ive got grind on the mind ..So im like put me on speaker so I can get my point across to everyone and dont be an emo sac of shi*..after im done.. so she does and they all go fuc**n quiet like a bunch of instigating bitches and dont know why i done this, i really dont, i jus couldnt stop myself..im like "WOW, I JUST WANNA SAY IM

SORRY....*PAUSE*....IM SORRY FOR LETTING YOU LOOSE SLAGS IN MY *****ING HOUSE WHEN I SHOULD HAVE HAD YOU ALL WORKING THE STREETS TO GET ME BACK IN *****ING ACTION, YOU MESSAGE-PARLOUR-HANDJOB-GIVING-WHORES" and i hang up. Im thinking of playing me some 25/50c half-buy hold em' on an all night mission to hit 1k. I only like playing my bread and butter game with 2 buy-ins.

14 BEAT: sold my dan harrington books, got carpet burns, diorrea

I just crashed out of the 28k, and I have 4 cents left to my name and I cannot pay the electric bill, i cant afford christmas presents or turkey, my underwear is ripped, I put my dan the man books on amazon used, and I got so mae when I got outdrawn that I ripped the buttons off my shirt and slid on my knees across the carpet into a praying position..as I did this I somehow got diorrea tha I couldnt control it and it felt so wet and squeaky, maybe from the pressure of everything and it ran down my leg, i also noticed a elongated turd behind the tv and I cannot remember how it got there.. I got up ad didnt give a damn that i was covered in **** I was hungry and a I found some yoghurt and it looked likea chia pet, it smelt like vomit, objectively my house smells like a scarecrows ballsack and when i look in mirrors I scare myself because I am like ar aging beast of a man, my eyes look like they are on fire..look I dont want sympathy, I just want you people to realise that ive given it everything I had, and im still getting fannyswabbed, I was a great player once, my popa called me a young gun ungar, cus when i was 6 I could count cards and beat blackjack for lots of money, unfortunatley when i was 9 he threw me down the stairs and I never recovered..Ive done what I can to get my life on track but i keep gettin dealt turn after river and a fat girlfriend, my genes are never going to survive the long haul, I asked krantz to send me 40k he didnt reply, typical pro, no time for anyone down on their luck in the poker community..allen cunnyham seemed like a nice honest guy until he competely ignored me in a game and I wanted to scare his hair out, Jman, another person I loved, but he is too good for everyone it seems. When I was at the top of the food chain, i leant 20k here, 15 k there cus i know what its like to be a starving poker player, eating rit crazkers and grits people just dont undeerstand how you have to be a jagged edge to play this game and let everyone bleed out on you, thats the sick truth, I have 4 cents left to my name and I cant even get in the sunday brawl sattelite the only consolation to my mind right now is the **** is starting to dry and i dont need to poop right this second..I am sorry guys, I am sorry, but I will make it I promise you, I will get to rail heaven I am determined, so determined that I have gone from 100/200 to ftps sattelites to get a token to get back in action, i got the token i lost the tpurnament, so we start again we grind again, we do it again, we get up and we dont quit, and I swear when get to railheaven I wont forget any of you, and one day you may come to me and say you know what you ****ed up, youve actually **** your pants and I will wipe your ass for you cus I know what its like to have touched noses with mice

15 Brag: got sent 5 dollars on full tilt but am grinding in female underwear

you may think this is shamefull..but they are the only clean ones I have and I cannot sit in my own ***** and play my game for long periods. I thought id clean up the cake from my butt so I sat over the bath and sprayed myself with a hose and rubbed shampoo into my butt cheeks because I could not find soap.. i cannot be the first man to play poker in their spouses undergarments? i hope people see this as part of my dedication to poker.

last night ChristopherEucken, you may know this person, he sent me 30 dollars and which was very kind and reminded me of the time I shipped 3000 to larry longlegs so he could get some new teeth. he didnt spend them on his teeth, but played 25/50 and went busto in 40 minutes after i left the casino. Thats poker.

I was determined to get back to the nosebleeds so I entered a tournament, and crashed out early on when my AK lost to A7 on the damnWTF turn..I put this guy all in on the flop and he caught his damn 7 and i was tilted I dont know why I did this but i broke my neighbours windows from the backyard and ran inside the house..they came round early this morning but i pretended to be out..luckily after I had pwderd my butt i got a PM from a new buddy of mine wombat4hire who had sent me 5 dollars So I thought im gonna do him proud and play some 10/25PLO, not my bread and butter game, but I was feeling ferocious..

16 Beat:woke up at 11pm ate cold spaghetti for breakfast

feel like utter ****..havent shaved in 3 months..i played all through the night thanks to craggoo(nice guy) who backed me in the 6.50 MTT on stars and i make the money but get my aces cracked by some ferret calling with k10 just cus hes got 70k in chips???WTFFFFFFFFFFFFFFFF..im so pissed that I punch myself in the eye and its still blurry. so thenI go and jizz my money away in a omaha game, its my drug my weakness and there is once again no light at the end of the tunnel, they are threatening to cut off my electric/water/internet... My dad always said to me that no matter what stay in action,,he said that I was a gifted gambler with great timing and sensitive to the poker environment and that I could turn a tootpick into a lumber yard..I believed him.. He used to let me play in home games and id beat up on the games because I could just look at a player and know where I am at in a hand. one time he put me up as collateral in a game and if he lost I would become a sex slave to a strange man . luckily he won, and he bought me icecream.

I cant give up on poker, I just cant quit, ive come too far and i feel trapped, a normal life is never going to appeal to me. dont get me wrong, I hate ****ting my pants, wearing panties, eating cold spaghetti, having afat girlfriend, ruining christmas, receivie threatening letters. but only a poker player could understand the thrill of playing poker. Ive played all my damn life, cards runs through my blood, eversince i learnt to count cards,I see cards in everything. even when I buy something from a store I see it as a bet, and what + or- ev I will get from what I buy. my father is always with me at the table. before he died he said to me he would come back from the dead and help me with other peoples hole cards, this is probably collusion but can never be proved. I just wish I could get back to 100/200 and stay there until I have the cash to fly to taiwan and live with a couple of myopic chicks.im tired of having chest pains and eating mayonaise sandwiches. I wish I could go back to the womb and never discover poker. I wish My dad hadn;t thrown me down the stairs, I wish my mother had never married an american gambler and allowed her vagina to release me.

I really need to win both of these. I know it wont happen and I will get sliced like horsedurves on some ****ty suck outs but I owe this to myself, to my staker to the memory of my degenerate gambler father and father christmas also. I actually had a wash today (wiped a dish cloth around my bits, and im going to do a little buddist mantra b4 the tournament to get me in the zone. oh and by the way, my fat girlfriend talked herself into coming home, i say she talked herself into it cus I made sure I only used monosyllabic replies on the phone to her because she really grits my ****.while she was talking I kept interrupting her with the word "DEATH" at random moments hoping it would scare her, i even used a voice of a horse goblin, but she came home anyway

for some reason she brought some old bitch back with her, something about her auntie staying for christmas???????? this woman is rude as *** gpt hair like spiderswebs and seemed to know way too much abot my poker lifestyle started talkin about getting a job for UPS cus her brother works for them, im like listen bitch, im a poker player, and if you cant handle that I suggest you fuc* off cus I dont want you here or your fat neice for taht matter and I dont need career advice from a woman who likes like a prehistoric version of the golden girls im only saying yes so I can grind some sit n gos christmas day, get some clean underwear and eg nog...this bitch looked at me like I pissed on her chips .im like what bitch? I hope she isnt around tonight while im playin the fiddy fiddy cus she got a wheelchair with a squeaky wheel which will put me on tilt

I have rubbed shoulders with the bustas and scrubs as well as the high rollers with crocodile shoes, diamond embroidered jeans and the rolex..but in my experience I have got the most respect for the players who sit shoulder to shoulder under the urinals and sleep in their cars to stay in action..I cannot pass by and see them fail..merry christmas to you from me and my fat girlfriend

My fat girlfriend is making the noises of a circus seal, nagging all the damn time, talking about how I shouldn't play poker on christmas day WTF?? her masculine voice is really starting to grate shes like a pirate with side flubber. She went absolutely nuts this morning just cus I didnt get her anything im like look bitch the bankroll comes first and ive got grind on the mind..she was so pissed off because I filled her stockings with peanuts..she is alsopissed cus I didnt sit at the table and eat dinner (she cant cook worth ****)..

my fat girlfriend was like WTF ARE YOU GOING TO DO THEN POKER I SUPPOSE? 18.1 Playing the 28k christmas day fat girlfriend nagging like ****

got into a 70-way pot and lost obv, and went broke..I cant take much more of this ****..I feel like a cowboy who lost his manhood..I cant even think straight today, need to step away and have a mayo sandwich, lets hope tomorrow shines on me instead of ****ting..when my confidence is low I play bad, and when im confident I am one of the best..and tonight I cared too much about the money, I never play well when I am worried about needing the money so bad just to keep me in cornflakes and milk..I feel more pressure now in these tourneys than when I used to bet 5k on sciccors paper rock..

unfortunately I am hardly ever confident because of some of the hits ive taken..i try to just stand up and keep fighting to get to the top but its hard when you face the prospect of a fat, girlfriend, fat children, possible father in law and no bankroll..I am going to read "the theory of poker" again from cover to cover and probably fall asleep with a stomach full of emptiness and a soul like a squashed flower..thanks to those who showed me support today..If I ever book a nice win I will be supportive of you if you are ever sleeping with flea ridden hobos on a tube train or perhaps inside cardboard wishing you had the 10 dollar buy in..I will always have your buy-in for whenever u want to play,,

gonna take my last shot at the 28k tomorrow with my remaining bankroll of \$29

18.2 Playing the 28k christmas day fat girlfriend nagging like ****

I hit my keyboard when I went out and full tilt closed down, so I wasn't there to say ty to all those who were encouraging me..staring at my ungar poster didn't seem to help and im busto once again and my fat girlfriend just walked in and made me shudder..my christmas has been like drying my face on a stranger's towel who has dried their genitals on the said towel..i dont know when i'll be back in action but I must find a way and take down one of these big tourneys because I cant live without poker or a shot at the nosebleeds..sometimes I cry when I think about the poker community and how my father would want me to keep going and I have a lock of his hair so one day if genetics advances I hope I can clone his body and it will be like doubling up through him..

merry christmas

19 Beat: lost the \$11 rebuy with cracked aces and made my face bleed

I cannot get a break, filthy raven sent me a stake to play (ty friend) and I wanted to do him proud, but its like everytime I get within grasp I get shafted..maybe I was judas in another life or perhaps some kind of filthy pig who raped other pigs. I went out with no regrets but I was so annoyed I sat with my head in hands wearing a ripped up dressing gown and dug my nails deep into my face until I drew blood then I wept silently and stared at my ungar poster..I havent been this low since I was playing slots in vegas and lost 8k..I was so mad at playin a game that I couldnt win that I approached the cashier and I ripped up 8 \$100 bills stuffed them into my mouth and spat them at this woman behind the desk. she called securityand i got escorted out to the sidewalk..I gave my last 400 dollars to a hooker and I was so sad that I turned down a handjob.

I dont know what to do anymore..I want to say sorry to the poker community as a whole..we all stick together, I am owed so much money that I will never see again..I always pay back my debts because my father said to me on his deathbed that a poker players reputation among poker players is a precious jewel.. I lended to much money when i was winning mainly to balding middle aged men who lived for 2/5limit and dice. Im a fool.

I guess this is as low as it gets, lower than the devils draws when hes on the john.. i was walking around the house earlier and everytime I thought of how much I had how much Ive lost and how im busto I kept dry heaving.. I used to make a lot of final tables, buy expensive champagne, i had a nice rolex i even had a skinny girlfriend who had pointy hips and bulimia but look how it changes..now im here with just my farts to keep me company and so hungry that im forced to lick butter

20 beat: im fearless at the table and so busto

Thats my biggest weakness, I am fearless and when i think I am a favorite I ship it all in with a clean conscience, but I have too much of my father inside me. he used to let me stay home from school and we used to play stud. If I lost he would eat my lunch. It forced me to card read, people read, and play the game to depths that scared me. One time I called a guys hand 6times in a row, his exact cards and he asked the game to be stopped. I dont know what it is, I just sometimes get a little tingling feeling, sometimes in my testicles, bowel or shoulder and I just know what to do.

I know about variance and I know I can get summoed at anytime but I once put my net worth on AA p/f at a casino in vegas that was going to be money to start my business. I lost. I just walked off with a sweaty groin and feeling of encircling grotty death and rebuilt my roll like a little elf in his little wooden house or whatever they live in. I ran errands, got vegan food for a mid stakes player called birdman with the pacemaker. I slept in my car and found out which materials were the best insulators. I once brushed a persons teeth daily to stay in action. He was homeless and had no arms. I lived a life of degenerate hell because i wanted to be the best and I still do. I always donated to the hookers and the people who just looked lost on the strip. I gave money to crackheads, which was a big mistake because I got robbed by the same crackheads and they even took my slippers. Its damn hot in vegas and its comfortable to walk the street in slippers. These slippers had personal value.

I thought today was going to be different. I had clean underwear, I punched the air, I listened to the communicating whales of the deeps. I tried to meditate on the win and then

When I feel bad about how I run sometimes I think about when I lost with a royal flush once in vegas. It was for 37k at a home game and it was the last of this guys money who was a notorious violent person and had been in jail 3 times, for robbery, assault and sexual assault. I had AK suited and I flopped the J10Q, all hearts. He flopped a set of jacks and the board paired on the turn. That's a flop that really wakes you up at 3am. The thing is this guy had murdered a person in the 80s and he didnt get caught and we all knew he killed the guy and even knew the rough area where the man's body was buried. For some weird reason, he kept the man's finger in a box that had a wedding ring on it. It was a disgusting looking piece of ****. I said I had a royal flush and they thought I was kidding. With a half smile I flipped over my cards like I didnt want to win and he looked down at his cards, then looked up at me and said that if I raked in the pot he would have to shoot me in the face bury me in an unmarked grave take back his money and rape my mother. I believed him. He is one of the scariest people I have ever met. There was silence for about 30 seconds. Then I mucked the cards and said its yours took my jacket and left the game. A few weeks later he calls me and says he wont forget what I did for him and that he owes me a debt, I felt like saying stick the finger up your ass but I didnt have the balls.

They were all like WHOAAAAA after the hand was flipped over and then they were perfectly silent and just as scared of him as I was. One of the guys said I was a pussy for not standing upto him but he didn't say **** during the game. I never got paid back a cent of my money. I wish I had the balls to ask for 1/2the pot or 1/3 but his eyes were reminded me of wild horses. He got nicknamed "hicoack" after that game cus wild bill famously pulled a stunt like that with a gun in the wild west which was reduced to "c0ck" by me when he was out of earshot. ****ing psycho-hose-beast (id never say that to his face).

21 Poker makes me sad like edgar alon poe

this game makes me a ****ing miserable shrimp at times.. a completely depressed sea urchin who longs for a nice bit of fishy pu55y but never gets the hot fish, just gets wank jobs from crabs. somedays I wake up from under the table and think YEAAAAAAAAAa im gonna tear this **** up today, I even grab some chips and do some chip tricks because I learned some on youtube and some exercises like star jumps and other combos.

so I have a mayo sandwich, 10 cigs, splash some cool water on my face and then I play a 5 buck tourney on stars cus thats all the damn money I got and I make it through 5000 people and win like 12 bucks and want to cut my feet off at the ankles..omg this makes me so sad, so depressed, maybe I need prozac but im scared ill do something stupid on it like marry my fat girlfriend or murder a priest ..there is something about the psychology of poker that makes me sad more than happy, but my father wills me on from the spirit world and I dont want to let him down. I feel him inside me.

taking my last \$11 to the 30k guaranteed on stars, I got grind on the mind.

22 my fat girlfriends brother (little fat man) wants me to teach him poker

Do you ever get approached? People start talking about being so good cus they played a party poker free roll and one 10 bucks on their first ever try. tilts me hard.

so my fat girlfriends brother said he wants to be a pro poker player (hes 17) and plays play money chips on stars and said he has over 1 million in chips like its some great accomplishment and he wants to deposit 200 and me be his coach. at this point im feeling quite proud cus he values my game and im like who's ya fave player bro?? then he said he wants to be like danny negreanu im like look you tubby little ****, do you got a damn clue???? danny negreanu is a limit qu3er. I know people who played poker and ended up eating week old lettuce out of a dumpser and received st1ff c0cks up their ass in parks to pay for debts. I know a guy who went to the blowjob wall and lost some teeth over a backroom stud game. hes like whats stud?? Im like OMG JUST SHUT UP you pathetic pile of slime magma.poker is a ****ing tough as **** and most people sink like a de-fibered turd, hes like, what like you???? and im so pissed at this point, his little fat freckled face looking at me and I wanted to slap his big beever cheeks but i didnt.. so I poked him quite hard in the flubber-pecks. im like what do you know about soul reads, going 6 tourneys 5000 players deep into the cash everytime. What do you know about calling nitty nuts down with jack high for a 17k pot . What do you know about getting getting a Bj at the table while in a tournament. he soon shut up his tubby hole.

I was like look,you are bound to be **** cus you you look a bit like gob boy. hes like who. im like lederers freak, hansons b1tch..im like but yea got a plan..just as im about to elaborate my fat girlfriend comes in the room looking like hot-trash (knee high boots and pregnant doing the housework) barf.. and she must have heard me cus she was like DONT GIVE HIM ANY MONEY, pointing at me?!?!? WTFFFF im like dont listen to the **** hole shes about to drop a donkey out of her ass and ****ed up in the mental but you are smarter arent you BRO????? hes like will you teach me????..im like stake me the 8 buy ins at 25nl..at this point my fat girlfriend cmes back in the room and asks if we want a drink, im like how about i get you a nice cup of shut the fuc*k u??? wow...she looked so pissed....

so anyway, i turn to gobbo, and im like i'll run that **** up to the nosebleeds, you wont have to deal with the stress and i'll keep you in enough cash to have your fingers always stinking of cheetos. hes like NOOOOO, I want to play pokerrrrrrrrrr and go all innn. IM LIKE SERIOUSLY GTFOOMH.

sometimes I will be tilted by crazy **** like one time i got tilted when i stubbed my damn toe and for 8k, another time I made a purchase online and I was ok with that but because my bankroll took a dip I treated it like a damn BAD BEAT and my tilt was lingering around me like farts in foam, I kept getting tempted to play underrolled and win back the cash I used to buy my watch..is this a diesese????it was like i couldnt cool off..damn lingering tilt haunts me and tried to get me to self-harm and donk off my money..can you relate??

24 Beat: My sunday million dream snatched away(thanks to those who believed in me)

I was happy earlier, I thought i'd got a seat into the sunday million and I was being nice to my fat girlfriend. I felt like christmas had come late and then I log in and the thread is gone like its omg cruel joke, the poker gods opening their piss flaps all over me. Shortly after the thread got closed I fell asleep and I dreamed the poker gods made me chase AA across the universe and when I get there its A4. **** YOU.

Someone told me to enter the writing competition in the lounge forum but they said they need good punctuation and im **** at punctuation and they also said no porn im like WTF why you so prudish about hearing of a shaved pussy, what you gonna do cry? People are still scared of genitals in 2009? MAN UP, SLAG.

Also, I am dyslexic and had a lazy eye as a child that corrected itself. I think the nurse called it an inverted eyeball. It used to point west in the summer when my body got hot, but somehow it corrected itself. I think my father took me to a gypsie woman and she either did some kind of magic on me, or I lost my virginity that day. It's all a blur. I seem remember that the gypsie woman had a shaved mound, but I also remember staring at my dad's ass and him dropping a towel. Something doesn't quite add up. Oh well.

I just want to say im sorry and I hope you all run better than I have..and dont ever give up..if I somehow I get some of the 80k back that im owed I will be back and if you ever need a bullet you can always PM me.

26.1 BEAT: saying goodbye

Hi guys im back...i shouldnt be here, I know I shouldnt be here all the odds were against me, last night I drank 3 litres of gravy and passed out..i felt like id been raped in the chocolate starfish by a midget..I woke up at 6am in a state of panic, I had no bankroll and no funds and nothing to pay the bills.. I sat naked with my head in my hands and cried because I had failed at getting back to the nosebleeds, my fat girlfriend said id failed as a man. picture a busto naked man sitting there on a rotting chair wall paper peeling off holes and stains in the carpet, sock with toes poking through staring into space asking the poker gods for wisdom and you will see what is the burning shipwreck that is my life. I would be lying if I said i didnt think about headbutting an axe, but then I realised if I quit now I would be going against everything my father had taught me everything I had strived for my whole life, I listened to youve lost that loving feeling by the righteous brothers and i was thinking what would maverick do? would he quit, would he stop grinding? grinding has my heart, poker is all ive got..I need to stick around so my child becomes a great poker player//I thought about BBV, and some of the people who have posted here sent me money and helped me and I thought NO I WILL NOT DIE. NOT TODAY. everytime my brain started to give me dark thoughts I said no brain, sit the **** down brain. I will not be like ashman stand in the snow and **** my pants..I will not let my BBV friends down, they want me to get to the nosebleeds and I want to take them with me..i want to raise enough cash so I can buy back my fathers ashes and jewellerry..i have bought myself a little time, I called up all the companies I owe money to and said I need two weeks to pay the debt they said we have already given you a month and the other company 3 months..i said luckily my uncle chester had just committed suicide and he has left me some inheritance and I will be getting it in 2 weeks and I will pay 2 months in advance aswell as settle the original debt i also said that my fat girlfriend was about to hang a doughnut and if you do this you will be putting a woman and child to the streets to get killed by thewolves, luckily they both agreed for 2 weeks..

now I have to do anything and everything to get back in action..i have called around everyone who owes me money and they dont pick up the phone..its funny, when you are sitting at the table with a fat stack people come upto you and treat you like a brother so they can borrow a thousand, but as soon as you are trying to borrow of those guys they treat you like a dirty sewer rat whe eats horse **** sandwiches..I even went down to the casino and found a guy who owes me 16k playing 5/10.. he said he cant pay me right now, im like not even 1k, he said no I told him my problems he just shrugged..I wanted to crush his face at that point, put his head on a pole, and stuff his fat ass full of straw.. but I knew that id never see the money if I did that and may aswell write it off..I

wish id never given him that 16k when I was playing 100/200..first it was 10k the it was another 6..lukkily not all poker players are like this I have just mixed with some very shady people..one guy who owes me money is now in prison for stabbing a poker dealer in the neck when he gave him bad beat after bad beat..i will never see that money..

so now ive gotta do everything I can to get back in action I will even consider writing a poem..im not gonna give up...i cant give up..the memory of my father must live on inside me..ive got grind on the mind..

my father once said I was made for the game
but playing poker for your life is like asking for pain
I said I dont care I just want to be like you
he said sit in seat 2 and ill show you what to do
I soon learned the hard way and lost a few stacks
everytime I lost a pot he would hand out the smacks
he once ate my lunch for losing he said try to be brave
he said if my jacks dont hold up you could be a sex slave
my mother hated the man for getting me in the game
she said why do call him young ungar thats not his name
he said listen up bitch my sons going to the top
hes got my reading skills but hes more deadly post flop
that was the nicest thing my dad had ever said
he took me to homegames where people got shot in the head
hookers in the hallways trying to suck on my balls
I was only 13 making sick insta calls
but now my dads dead and miss him so much
but he rails from beyond the grave so we still keep in touch
ill never forget some of the games at our home
sharing the same hooker on the sofa of a motorhome
like 2 peas in pod or one dog with one bone
on his death bed he said boy when im gone
sell anything to get in action except your bum
he said niche just try to never get in behind
i said dad im not gay ive got grind on the mind
ill never forget the night my dad slipped away
he went south and left me with his debt to pay

26.3 BEAT: saying goodbye

its been a long night, I went busto and my goldfish croaked, maybe keeping him in the tub wasnt such a good idea but I couldnt afford a new bowl. what can I say to foxwood fiend..all my posts from the very start show parts of my life of highs lows mainly lows..I have been lower in the toilet bowl than squirming tapeworms...I actually dont like going over my old posts because it makes my

blood pressure go up reading them and my heart break..then i think of things that bring out disgustinng feelings in myself..how I went from 100/200 to playing with the crotch monkeys (25nl), how I used to surf the web and look for occult spells to make me run better.. how I bought my g/f a poodle and then sold the poodle to get back in action..how I beat up my fat girlfriends cunning fat father.. how I stabbed myself in the leg with a breadknife after a bad beat..how my fat girlfriend strangulated herself with a phone chord because of my poker lifestyle. and how she tried to suffocate me in my sleep..whenever I think about it, it just puts me in a world of pain..my life has been like a fire on a submarine..

my mother wont even speak to me i tried to call her and tell her i was about to be a dad..she hasnt returned my calls..my mother is a eccentric english woman who got knocked up with me on a vacation in vegas where she met my dad who was quite a famous poker player degenerate who would have 200k one day and no money for diapers on the next,,my father couldnt give her a life and he would screw anything that had glands..he was obsessed with me wanted me to live his dream and she hated him for that..she wanted me to be a good boy and learn the violin

my father gave me the poker life and made me abandon everything else.. now im trapped trying to make him proud..my dad always said blood is thicker than water but never **** your daughter..he was full of wisdom..I either make it in poker and win this dogfight with insanity and and get back to the nosebleeds or I die a grotty death, embalm me, powder my face and snap my hands off....poker is all ive got left....some days you feel like a tomcat with 3 balls other days you feel like a blood donor who couldnt say no..I see a glimmer of hope..i'd put it all on the line to get back in the big games and provide for my family and help all the people in BBV who have treated me like family..

im in my 30s, but yes I am a bit of a loner...this is because when my friends at school collected baseball cards, i was trying to beat balding middle aged men in home games,,my only friends have been poker players in and out of action..I dont think im mental, but I have been close to losing my mind and set fire to myself once..i dont mean to whine and bitch I just wanted to share my story..i dont want anyone to feel bad for me..

have you ever seen two men with no arms fighting over a pair of gloves?

My life has been like that in passing..very strange. what can I do except embrace it and try and dig myself out of a **** hole? if I roll over and die now, all those heads up games with my father wpuld have been for nothing.. still cant balance my range like he used to and get in peoples heads like him..he could send players on tilt in 5 minutes..he taught me to never give up and always give back to the hobos because if you are not good to people on your way up you might meet them on your way back down.. not so ridiculous when your fat girlfriend and unborn child could be thrown out on the street and the only family ive got is poker players..you just dont understand the life..I used to tip cab drivers \$500 even when they took the long route to the casino..one cab driver said I saved his family because he needed cash to keep his car on the road..I gave him the money in cash and kept him working..his wife made me a cheesecake and she brought it to me at the casino..

money is just numbers to me and the numbers are keeping score..when ive got money I havent lost most of it it in the games ive mainly lost it through getting my poker family back in action and never getting paid back because they either disappeared went to jail or went busto..

27 beat: fat girlfriends auntie is haunting me

Omg.. everywhere I go in the house this bitch rolls up is right there staring at me..when my fat girlfriend went to the store yesterday probably for more chocolate milk I fell asleep on the couch naked apart from one sock cus i was trying to relax and forget I was busto but I kept having dreams about having KK against ziggmund shoving on me.. I wake up and this wrinkly old sag bag bitch is just sat there staring at me smokin her damn electronic cig WTFEEEEEEEEEEEEEEEEEEEE i nearly had a damn heart attack im like wow roll out bitch dont make me drop you off a deep curb she looks damn offended face like a ****ed up dinosaur straight from the egg and speeds off..well like not even 1kmh..her wheel chair tilts me so hard cus its got a squeakey damn wheel but its even worse cus when this damn wheelchair is on the move it beeps as well ..i can hear her coming a mile off.

..i tricked the bitch earlier though cus i heard her coming down the hallway so i dive behind the couch i hear her come in the room i felt like i was on a submarine radar..then the beeping dies down and i think wtfhhh she hasnt left the room wtfhhh is she doing?? the room is so quiet i peek from behind the couch and she is just sat there looking weird staring into space..I get back down behind the couch thinking ok she will leave soon..then omg i start hearing this faint moaning noises..then she starts groaning a little i take another look and shes got her big ass panties down by her knees and shes rubbing what appears to be a vagina omg the hair was everywhere i think it had a side parting..OMG i dry heaved trying not to throw up carrots, then her breath gets deeper and i start hearing a weird flap flapping noise like a duck eating bread off a lake..shes is groaning at this point she thinks shes is alone but i cant help looking omgggggggggggggggg she starts doing what looks like fisting of some kind and this medusa looking bitch has a big orgasm im my damn living room!!!!!!!!!!!!!!

I am so disgusted at this point at least when i masturbate i do it in a sock in my own damn house..this bitch had multiples all overherself in her neices living room ughhhhhhhhhhhhhhh..so then after about 20 mins of hells vengeance on my soul..I start hearing a beep beep noise and she is on the move again..and she slowly leaves room..I dont know why I did this maybe it was because I was so mad and so disgusted at the time I do regret it now..im so pissed that I grab a mouldy brown apple from the bowl.. I throw it down the hall as hard as I can..must have have been a lucky shot and it hits her right in the back of the melon and explodes and goes everywhere..she falls forward out of her wheelchair and headbutts the floor..wow it looked painful I shout my fat girlfiend from upstairs she comes running down im like i think she tripped out of her wheelchair..my fat girlfriend is like ohhh auntie are you ok auntieeeeeeeee?? im lookin at her sex addicted auntie like oh i got dirt on you bitch now she knows I was in the room im waiting for the moment to blackmail her out of \$500 or maybe \$1000 so I can get back in action if she doesnt stake me I am going to tell my fat girlfriend about her session with her wooly mammoth...ive got grind on the mind

28 Brag:car crash gets me back in action

so im laying in bed this morning damn the sheets were stinking my fat girlfriend was snoring beside me I could hear the bitch on wheels beeping downstairs..i had a flashback of her fondling herself and closed my eyes and gave a deep sigh..I was thinking what a damn mess im going to be a dad soon and i have nothing to offer my kid..i woke up feeling so damn sad today at not being able to wake up and get straight into grind mode..or grab an espresso valet park and hit the casino..i feel like a retired old man with disturbing dreams sometimes i feel like pirannahs are swimming after me and they always go for my genitals and they have big teeth and inside their mouths are limbs of dead people..im sitting there thinking of pushing my fat girlfriend out of bed when suddenly i hear a screeec h a long ass skid and a big CRUNCH im like whoa run to the window with no underwear and I think a deer just got tanked..

I look outside and there is a guy standing there with his head in hands and the back of my car is completely ****ing smashed to pieces, there was glass everywhere..this guy managed to do a 180 and crash the back of his truck straight into my car WTFEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEE the guy comes to my door and hes like oh dude dude im so sorry im like sick cooler... hes like OMG I JUST HAD A CRASH dude!!!! im like yea you are probably a terrible driver.. ..he starts writing down his name and insurance details and this guy is shaking like a chiowowa without a winter coat im like do you want to come in and have a vodka redbull or some cough meds or coffeehes like no im late for work im so sorry..im like if you have a full tilt account we can settle this right now hes like what im like look dude are you a poker player? hes like poker? im like yes, you know NL PLO razz STUD..he said i dont know what you are talking about.I said how about pokerstars i am dawgtanion on pokerstars he looks so confused..i said look man if i was still playin high stakes I would probably just say dont worry about it but im out of action and my fat girlfriend is about to bang out a sprog so I need some funds for heads up play or 6 handed.. he said his insurance company would contact me later

..so I go inside and im thinking that nothing will happen and I get a call and they are going to send me a check for \$1200 because the driver said it was all his fault and my car was parked or some ****.. Im like whoa that is 2/4 stakes, that is more like it can you please tell that man ty for having a crash into my car and if he ever needs to get in action he can drop by the house I will arrange some kind of stake he said no he could not do that..I told my fat girlfriend I am getting \$500 for the car cus she will just gobble that **** up like its butter biscuits if i tell her

29 Beat: may have to become an experiment

im still not in action this is driving me crazy..insurance company said it could be 3 weeks b4 i see money for my car WTFFFF thats longer than a FT cashout I was on the phone to some woman with a husky voice i was like you better not grim me pal..she said be patient? WTF...im like you ever been busto and felt the weight of your fatgirlfriend and unborn child on your shoulders and a mountain of bills the only thing lifting your spirits is arubbing one out early morning so you can lift yourself out of bed?..she hung up.

I am even considering experiments i found a site where i can be a giunee pig for an experiment all i have to do is have a constant erection for 14 days doesnt seem to bad aslong as it means i can play at least 5/10 that is a small price to pay..seems better than selling a kidney and doctors think they own your kidneys these days..i emailed this pharmaceutic company they want to know if i am a fit male i said I was probably one of the fittest in the country and i was once chased by tigers in kenya..I asked if they do rakeback waiting for a response on that...if i do this wont be telling my fat girlfriend as she may want sex with me all the time and I cannot have sex with her even once as she reminds me of michelin woman so may have to tape down my erection..

i cant help but think how sex might be when the baby arrives but my fat girlfriend said that she wont be able to have sex for 6 weeks i guess thats so her flaps have time to fold back in.. I was quite pleased but she does not know I am pleased and this is a major brag.. wanted to ask her if her undercarriage would be very loose like putting a mouse in a cannon but I thought id keep that to myself.

..her auntie is tilting me so hard I am thinking of loosening the wheels on her chair to teach her a lesson or maybe i can insert a computer virus into her wheelchair as its electronic..I want it to start breakdancing or maybe buck her out of her chair...she keeps calling me waste of space face...I told my fat girlfriend she has got to go or I am going to end up launching her down a steep bank..she is supposed to be here to prepare for baby all she has said so far is labor pain is terrible it will probably kill you..wtfff..i could have told her that my damn self this wanabee midwife bitch..she dont know **** about babies or poker..shes so got to go

that dumb bitch has been tilting me hard also everytime she gets out of line I just wheel her into random spots around the house like facing the toilet with a nice log in view. especially when she is asleep..last night i wheeled out onto the damn street that will teach the backstabbing bitch..she talks **** about me but thinks i cant hear her..she couldnt hear a damn foghorn coming out of her own ass hole and she shouts all the damn time telling my fat girlfriend she needs to go on maury to find a new man im like yea right shes damaged goods and has crazy chins..she keeps telling me to order her some vanilla eciggerete cartridges from online im like wow you are one nictonine addicted bitch why dont you buy your own computer and learn to work it i bet you couldnt even get it out of the damn box without your big ass panties falling down..she scrunched up her face wow the wrinkles went on forever..

so anyway I picked up AK suited [hearts] no messing around and OOP and some guy raised in EP 3 times the blind im like **** this im here to win and im never gonna get to the damn nosebleeds if im not a damn warrior..so I push all in he calls with KK and I dont get a damn ace or a damn flush FFS..I ran and head butted the damn door and wish I hadnt i still feel dizzy one hour later..i really should have damn realised his EP raise was stronger than AK and seen a damn flop i just had 2 many visions of playing gus heads up in my head. .im really depressed again...i dont think this insurance money is ever showing up and all i want to do is take that \$700 and steady grind 5/10..i feel like maybe this cloud will never pass over my life my eyes are full of tears as I write this i feel like such a puddle of piss

some guy contacted me and said he wants to make a website or some **** to help me get back to the nosebleeds he was like he has bought king niche site im like how are you goin to steal my damn name...ive already got a facebook thanks to knockonwood and many poker friends on BBV..he said he is a big fan and he wants to see me playing railheaven..he was like maybe we can meet up for lunch.. im like no i will not meet you for lunch i think you might want to have sex with me and i dont eat lunch unless its a mayo sandwich. he said said no no its not like that trust me man can you trust me man im like no. what do you know about poker he said he is a 1/2 grinder and a programer..im like well i dont know **** about sites he said it dont matter..im thinkin with a ****ty \$700 roll what the **** have i got to lose ive been raped by degens all my damn life this will just be another time..

.my fat girlfriend said forget it stop being a loser and go work for min wage im like your the loser bitch why dont you cry me a damn river and go work a ****ty job while i grind..she is like i am having a baby im like wow. first. she is just jealous cus i have 160 friends on facebook and she has 8 and one of those people is the same person. So basically im still out of action no sign of getting back in it soon and im just a stranger in my own house my face is starting to age poker is either going to kill me or make me stronger..i just dont want to let people down anymore ..when I think of BBv and all the people who have railed and said they believe in me it gives me hope when im at a table and im thinking of making warewolf moves and shoving with air just for the buzz and outplaying some nit i try and hold back and remember basics like balancing my range and position.. my dad always used to say position is the pussy in the poker panties

31 beat: the bills keep rolling in

Every damn day I wake up and another ****ing bill hits the matt..all these bills are killing my damn action..i feel like im a rat treading water in a vat of tears waiting to die.. my fat girlfriend stands there every morning with her big sloppy face yapping in my ear saying damn we are going to be living on the street in some kind of damn panic im like no bitch you can live on the street im living in the damn car till i can get back in action..she slike OMGGGGGGGGG dont say that... if i have to live in the car I would die..im like wow you are one spoilt bitch..when i was playing in the high games I would always see the hobos skanks tramps hoes crack fiends the queers and they all had a damn story of pain..i never forgot that kind of pain, the type that is like a shooting pain right up through your anus..I never take it for granted..one time I gave \$1000 to a hobo and took him upto my hotel room so he could raid the mini bar..im like help yourself bro i got you..hes like thanks man..this guy had a damn birds nest on his face and odd shoes on with track pants but he seems like a guy down on his damn luck so i let him take a nap in my bed while i jumped in the shower

...so this stupid hotel manager comes and knocks on my door while im in the shower and I goto the door naked like a true ****ing champ..this old bald guy says im sorry sir that man has to leave the hotel ..im like why we arent ****ing or anything im just trying to help this guy out cus he lives under a bridge..hes like sorry sir hes got to go..im like listen you bald crotch monkey, that is my damn friend and he is street busto living like a damn mouse in the streets hes my guest in this damn hotel and just cus he stinks of **** and cheese it doesnt mean hes gotta go..so how about you go suck your own ****

..this guy looks scared as **** and runs off saying hes calling damn security .. so i wake up the hobo and tell him we gotta leave the hotel cus security are about to get aggro hes likedont worry niche i got this and he pulls out a damn screwdriver WTFEEEEEEEEEE are you going to do with that he says im gonna stab them bastids in the face and he starts waving the screwdriver around like a damn lightsabre..im like whoa that is a very bad idea put down the screwdriver you crazy hobo person..im like you are probably bluffin OP anyway.. he starts going wild in the damn room pulling off the paintings on the walls and spitting and then he pulls over a cabinet im like damn wtf are you doing..hes like watch this bro..and he jumps on the bed pulls down his pants and screws up his face and does a long fart and a massive **** on the bed im like omg im gonna throw up..hes like fight the system!!!!!!! fight the system! im like wow that is going to put me in the red i want my 1k back hes like no way..so thats when security burst in and i tell them that this hobo was trying to rob me and they carry him out of the room and he is screaming and i remember how sickened i was at his balls flapping around as he wriggled in their arms

so after paying my staker swd and cashing out for bills and donking some away at omaha I have \$100 left and im going to play some Mtts tonight and go deep or die..i've got grind on the mind...my fat girlfriend wants me to watch a movie with her im like id rather play razz with erik siedel bitch

32 Trying to take down the double deuce (grind on the mind)

the last couple of weeks have been like cold turkey for me, ive felt black clouds hovering in my dreams acid storms, rain pelting onto my face as warm as piss..ive felt kind of like falling from an aeroplane and hitting the ground at the speed of light and your rib cage spearing through your skin like a broken bamboo basket..

..ontop of that **** I havent been able to play ***** poker which has given me anger problems. my fat girlfriend was like cmon baby forget poker lets have some me and you time...i looked at her with severe zigzagger eyebrows like wtf bitch do you know me at all???? wow you are one loser bitch how can you not know that poker is the slit in my dick??? shes like that is digusting im trying to save your life poker will kill you one day..she said poker makes me angry im like no it ***** doesnt just let me put 100 on your card and run that **** up and i'll calm myself down she like see you have issues im like **** you you dont know me you dont know how to play poker, you dont know how tokeep a steady nerve when you need your 2 pair to hold up against a flush or for the next week you will be *****ting in bushes.

.she was like you are infuriating and you need anger management im like **** you and your crumb coated mouth..thats when i went in my lounge and ripped off some wallpaper..broke a toe kicking a table with no socks on and then i cracked my damn tooth opening a beer bottle. my fat girlfriend came in the room and started whining and spitting up tears.. i pushed my fat girlfriend over at this point because i wanted to see if she could actually stand up on her own while being a big pregnant person and she couldnt..im like yea wriggle bitch i bet you intercepted my insurance money thats why I havent got that **** i need that cash to play 3/6 how the hell am i suppose to get the crocodile shoes with you as my girlfriend you should be trying to get me in action but you work against me i feel like a damn gangsta who worries about getting wacked on the damn street and worry about getting wacked at home cus his wife is a crazy bunny boiling bitch..all you talk about is u cant wait to chnage the babies butt and bs i dont want to hear about everyone keeps asking me when is the baby due how the **** am i supposed to know i dont ask those kinds of questions she is fat thats all i know

33 Brag: I'll never quit poker

yes the tears fall as I type that... I know its not manly but I missed you all BBV...ive had monster depression and I want to type my story so anybody who plays poker and feels alone can read this and hopefully not feel so alone and bounce back and know that if you keep grind on the mind you will come out the other side smelling sweet once again and get those crocodile shoes or at least short stack at hansen hangout

We have all woken up with our dicks stuck to our sheets and the smell of vinegar ... our ass cheeks stuck together our eyes full of green crust.. toe nails long and sharp smelling of infection, the weeping sore of a herpes blister on your toe the combination of sperm and toilet paper stuck to your fingers like glue half awake dreaming of aces in the cut off against that limit *** begreanu slapping his mouth with your small balls..listen poker can be kind poker can be cruel poker can make you lose the will to live..thats whats happened to me..people have been asking why I havent been posting well I was sad so sad that I stayed in a bath for 3 days I even took a dump in there ..I just kept staring at the wall and imagining every damn combination of poker hand that I could and the odds and reverse implied odds of every street and every situation sometimes I would flap my leg around to see where the turd went and there it would come out from around my back sailing like it didnt want to die...

that was when I knew that I had to get back in the game..I knew poker was the only thing in my life worth anything and my fat girlfriend had almost poisoned me against poker and against myself..she almost convinced me that I was better without poker and that I am a better man without it and always have foreplay and I dont yell the nuts the nuts everytime I bust my wads and she says its nice that we can be romantic I said how can we be romantic when you have one long titty and one short titty why is that has a monkey been hanging off that 1 titty? she looked out of the window with pain..

I went to see a doctor and told him how sad I was that I could not play the pokers he said he did not understand but he could give me some pills that would fix my brain electricity or some **** he said lots of people take them even tom cruise i said will they make me want to kill myself he said no I said that some woman told me that when she took happy pills she felt like she had a rat crawling around in her ass hole... he just stared at me and went red...I said that poker was the only thing that could save my life and make this dark gaping hole feel like sunshine..he said why dont you find another game like chess I said are you out of your ****ing mind not being able to play poker would be like you not being able to enjoy examining womens breasts ..he said nothing..then he asked if I wanted an antidepressant I said no because I think I know what my problem is..I havent been doing everything I can to get in action..I havent been running errands selling sperm and blood trying to sell body organs getting my fat girlfriend to poll dance selling her cats... robbing her fat cunning father..i havent been doing what a great poker player does best...gets in action and stays in action and does anything except sells his **** or sleeps with his daughter.. and never quits even when he loses 55 buy ins when he was ahead 87% of the time and feels like scalping himself with a spoon..a poker player must always fight the darkness and never ever ever ever let some stupid person tell them that poker is bad for you because if you believe that **** you will be working at wendys taking 50 pisses a day just so u dnt have to heat up nuggets..and have a ****ty pension and having a set amount of money you earn each week what kind of BS is that..id rather deep fry my own balls like they were chinese dumplings than bow to anything except poker..my friend Pokers Hard told me to talk about my depression and I might feel better and I do so ty Pokers Hard you are a good poker player with a lot of heart..

so keep fighting BBV never quit when your wife says no sex for you tonight! just fire up youporn and bang one out in your hand..we all know that after 3 minutes the vagina becomes worthless and we dont want it anymore anyway..i never tell my fat girlfriend that though..how can I tell her that I sometimes think I love her and the moment I let my fish fly I think wow I must have been uber crazy to think i loved this fat bitch..and if your mom or your dad says wow all you do is sleep

all day and play poker and eat pizza and piss in bottles like my friend horse who is 23 tell them to go work for the man and let him pimp slap their lives with 9 to fives.. but no I am not going down like that..if I go down its gonna be as a 53% fave with my whole damn roll on the line like a damn firecracker crocodile shoes or sing the blues I dont give a **** id rather live in an apple tree with the dream of playing the nosebleeds having the choice to surf and ski rather than working for minimum wage with the rage of a caged walrus...follow your fiery poker heart and keep grind on the mind..

Oh and always listen to your dreams..I keep having dreams of my father..he hasnt been railing from beyond the grave lately..i havent heard his voice in my head saying PUSH YOU IDIOT HES GOT AIR..but I keep having this dream about my dead father.. he is always riding a horse naked and im standing there.. he gallops upto me and he waves me to come closer with his hand and he holds up his palms and on both hands is Ace Ace then suddenly the horse takes the longest piss I have ever seen in my life..

listen to your dreams and always keep grind on the mind..

34 The best poker advice you have ever been given?

Mine was from my father r.i.p. I never forget what my dad said to me. It was the night he won a pontiac at a local home game. He was a poker player for over 30 years in vegas. He said to me "Listen up Niche and dont forget this.. most poker players will tell you to be a nit.. i say they dont know what they are talking about.. take shots underrolled and keep climbing the pile even if you fall from a great height. Dont listen to the nits..they will never be rich they will just breakeven and have a few winning years.. And most important of all...most poker players will say that poker is about exploiting the weak and vulnerable but that is not true...poker is about helping the weak and beating the best.

34.1 The best poker advice you have ever been given?

ofcourse I am serious..why do u think Durrrr continually put one third of his roll on the line and didnt care about what limits he played and got to the nosebleeds..he understand that poker is about taking shots and getting the crocodile shoes

34.3 The best poker advice you have ever been given?

i do not have a blog but the story of my poker life including all my experiences as a poker player including being busto and laying in the gutter with the hobos, skanks, crac fiends and queers can be found by using an advanced search..I made some good friends along the way and some people who sold me down the river including one tooth terry..please do not pm me about the time I lost with aces to aces and ask how I felt..returning to the time when I sold my girlfriends poodle to play poker is also something that I want to forget..ive got grind on the mind

35 Beat: people in tears over downswings

my heart goes out to them and i put them back in action when I can but complaining about your 40+ buy in downswing??? thats nothing ive had 100+ downswings one that lasted 7 months straight.. I lost 49 flips in a row where I was a slight fave in this period and people were hitting flushes against my TPTK and 2 pair hands 4 in 5 times. You havent lived till you have been cooled by an overset time and time again and people turn quads over on your boats like its battleships and straight flushes that punch you in the gut and make you bring up your waffles.

People seem shocked when this happens to them..this one guy at the casino a solid 10/20 reg started crying one night after a long session because he had a 34 buy in downswing i was like wtf man are u serious thats a splinter dry your eyes.. he was blubbing like a child im like goto the bathroom and jackoff forget it..move on..hes like crying like a baby at this point because he said it took him 7 years to build his roll and one month was all it took to blow the whole roll with great BRM. im like listen you thought poker was going to be easy. poker is never easy. hurricane swings are for life ask durr in 20 years when he has no hair. he will tell you the same. I've heard a million bad beat stories. ive heard them all. this guy looked at me the crying had almost stopped he rubbed his bloodshot eyes.. I put a 1k chip in his hand and said be lucky. He said ty buddy but I already owe you 4k i said forget it just remember me if im ever face down in the slop bucket.. I got up to leave and thats when he grabbed my arm and said niche whats the secret to turning this around I said hmm probably grind it out at low limits with a small roll playing 10/20cent cent games ..he looked at me confused.. then I said or do what I do... play 3 limits over your bankroll and pull some warewolf moves.

its been hard because the pain at times has felt like being squished in an elevator shaft but you have to realise that if you quit you will never have the chance of tearing up the 500/1000 and having a toilet with the automatic butt wash air dry and powder puff

I said im flipping so bad greg. so bad. he said how many. I said 20 and going. he laughed and said that 20 was like the tip of an iceberg..he said wait awhile and you will know just what RANDOM can do..the following year it got even worse and I never forgot greg..he never used to change his shirts and from the back he had sweat stains that looked like a map of europe

36 beat: my mom wants me to break her out of a mental hospital

maybe you guys dont know much about my mom basically she got pregnant with me on a vacation to vegas my dad said he bent her over a car one night after playing at the mirage..she has been in an asylum in england she has outbursts of bipolaroid and hysterics when i was a young boy she wanted a girl so bad that she dressed me in girls clothes for the first 2 years of my life ..i was also sent to live with my aunt because my dad stayed out playing poker and didnt come home sometimes for 3 weeks and she would tie me up so i wouldnt be kidnapped.. sometimes she would forget to feed me..there was one time i remember eaing dogfood because i was hungry..she used to wrap me in cling wrap and send me out to play with my friends and she used to put a battery in my shoe and she said she could track my whereabouts..she also used to tell me i had bad dieseses such as aids and cystic fibrosis..when she was a young girl she had tuberculosis and she was in the hospital for a year she used to make me spit in her hand to see if there was any blood in my flem..she wipid my butt till i was 9..

she wanted me to learn violin i lied to her and said i learned to play so she wouldnt have a exorcist rage..my dad stayed out of the house because he feared she would one day shoot him in the face while he was asleep she said it was just an excuse to play poker..he told me if we didnt escape her and if i didnt go and live with him she would probably drown me in the bath.. i dont think she would ever do that..she is just minderstood. she is very eccentric and recites poems to me all the time over the phone..she wears old clothes and smells like moths.. she said they keep drugging her at the mental hospital and keep taking away her beethoven and doing vaginal examinations..she wants me to save her and take care of her she asked me how i was going with my job at the car dealership I said it was going great..if i told her i was a pro poker player she would probably stab herself with pencils..she feels the same way about poker as my fat girlfriend..mainly because my father lost her £100k inheritance on 6 months playing 10/20 and he was never home..some days he would bring home 40k other nights he would roll in and start beating her up.. also he used to **** lots of different women mainly because he used to win big and wear the alligator shoes..women love a guy witha fat pocket..on the day my mom was arriving from england to reunite our family ..my dad had convinced her to come home and make a fresh start..and on that day she caught him fisting a woman with a prostetic leg. she hates my dad. and she has never forgiven him for turning me into a poker player she wanted me to do ballet or paint landscapes.

..one day she said to me why are you a loser? thats hard when your mom says that to you while she is eating cornflakes..i'm trying to get back in action to see if i can get her to come home..she was crying on the phone and it broke my heart..she said she misses her neeshy poo..i was like ok i need money now its the only way i canfix my problems and only poker is going to fix me ive got grind on the mind so I took the \$70 I wont in a mtt and ran that **** upto 300 then I got into a big hand at 1/2 for \$370 and was drawing dead to a diamond on the turn. I bricked out and and my lip quivered i feel like a germ.

37 Brag: Played one of the most memorable pots of my life

so i get a message on my phone asking me to head to the casino because tommy "deuce" daniels and a couple of other nitty regs are playing we call him deuce cus he always comes round ya house and drops a thunder deuce in the potty. I wasnt going to be in this game because a. im broke and b. my fat g/f started complaining she said if you go the locks will change by the time you get home im like look i can beat this game if only i had the buy in and if I win I will bring you some kFC back im heading down to the casino to get a stake and when i get home I want some mayo sandwiches i think the chicken put us at a stalemate..she storms off and gets on the phone to one of her slut firends who has herpes because she cant keep her VJ off the pole. so anyway i leave the house and I can hear her on the phone from outside i immediately think wow what a loud fat bitch..

so i jump in my car and I sit on a mouldy piece of pizza it smell so bad it made me gag i hat driving this beaten up piece of **** mobile so think *** this I will walk its about 45 minute walk but i like to go over hands in my head as I walk and play them out by the time i get to the casino..sometimes i imagine im walking with my dad and i can hear his crocodile footsteps on the sidewalk...sometimes i imagine i get dragged into an alley by a hot piece of hole and she gobbles me off in the sun rubbin her axe wound ..by the time i get to the casino my shirt is stuck to my back and I stink but i know i am going to be in good company when i get in the casino so stinking like ass is not a concern of mine ive got a stake to get..

i go in the casino and approach the 3/6 game 4 oldish men and an asian who looks like a cat..this guy charles mucks his hand and is like hey what are you looking to get into today niche??? im like i havent got the buy in for what I want to play hes like whats that????? so im like im here to play tommy deuce whats he playing? this guy who was quiet at the table upto this point is like FIYVE TAYN with his stong texas accent.. charles is like whoa epic showdown(this guy tried to fit in with the internet players hes always saying donkaments when anyone mentions a MTT) hes like how much do you need im like just 1k..at the moment i get 4 thousand thrown at me by these guys at the table im like no its ok i just need 1k take 250 of me each..they are like ok and the game breaks apart from the asian who looks pissed and calls charles a quitter im like hey **** you shorty go home and grind 16 tables online he gathers up his chips curses me out in hislanguage and leaves..i have to wait for a seat to play deuce..eventually charles gets me a seat by tellin this young fella in seat 3 that he is a tasty piece of white ass..this young preppy kid was stuck 800 but this made him quit pretty fast so I sit down with 1k..for some reason all the other nitty regs sit out when i sit down..charles is like you got this niche..these other guys seem to know me but i dont know them one of these guys says what KING NICHE from 2+2?? whoaaaa are u kidding me im like listen i dont want any trouble ive been out of action for sometime and ive got grind on the mind hes like no worries bro hows the fat girlfriend??? im like fat..and he bursts out laughing..there is quite a crowd at this point and deuce is loving the spotlight and has a big stack he wants to crush me infront of everyone..i was reminded of the time i had to play tony rwc with my pride on the line on pokerstars..

I raise the first pot on with any 2 cards to 17 he folds and the other nit who sat back in with 500 folds..deuce turns to me and is like 17? we arent on full tilt now..im like my dad tells me what to raise...hes like what? i dont say a word..the second hand I pick up king 9 suited deuces raises to 20 ..nit folds ..I raise to 37..he folds and looks a little pride bitten..charles says thats the niche i know and love..a few hands later I get AA I raise to 17..nit folds and deuce raises to 45..I raise to 95..he goes all in I call...he turns over 99 i sho him aces and he punches the table and his stack goes everywhere...hes pissed at this point he tells his nit buddy to get him a ****in drink..flop comes 9 4 5..hes liek YESS!!! hahaha take that bitch! im ****in hurting..i get no help on turn or river..i go to get up and charles gives me 1k more..im like hey thanks charles..i could tell deuce would rather quit me there but with the crows he knows he cant quit me..

At this point the nit says hey i will let you guys play heads up and leaves so its just me and deuce-sh..for some reason deuce keeps raising to 8 times the blind..and I defend twice with air and he folds..he starts raising only to 4 times the blind from then on...I get 88 on the bb and I raise to 17 he calls... flop comes 42A mixd paint..he checks...I c-bet, he raises, I re raise..he shoves.. I fold and he shows 99...charles criticises the dealer for spitting out so many nines... the very next hand i get 88 again!...he raises to 20...I raise to 75..he tanks like hes a superstar and looks at me like hes daniel allahee and tilts his head and calls..The flop comes A 8 2 two spades..I bet out 120..he shoves and i know hes shoving any ace I call he has a5 wit ace of spades for the trap door flush and the turn and river changes nothing and I scoop the pot and the people watching give a big cheer and charles puts his hand on my shoulder for quite a long time which makes me a bit uncomfortable because it looks a bit suspect and probably gay and he has fresh crap under his fingernails..im like hahaha charles and move his hand off me..

so at this point i have just under 2k and thats when the big hand happens..i have a read on deuce and thats that he likes to raise with draws and he is in love with suited connectors..he has a leak which is that he always raises 3 times with suited connectors and small pocket pairs...this hand came up and I have QJ suited..I limp the button and he raises to 30..im thinking ok small pocket pair or some connectors..i heard my dad say careful in my head..i call flop comes 9910...he bets out 25 I raise...to 55..he thinks about it and says lets step up the meta game...he reaches for chips his fingers shake a little im unsure if hes got the the 9 at this point maybe the A9 but my instinct is hes weak and drawing. he raises to 90..I quickly call.. the turn is an ace.. some guy says big pot developing and i hear charles say dont forget thats my money niche..pot stands at 240..deuce looks at me and says "im all in" his voice was breaking a little and as he put in his chips over 2k and he breaks eye contact..charles is like have u got a hand niche, what have you got?? tell me what youve got ffs dont call with less than trips please omg i cant take this..

i turn to charles and say I think im good here ive got a big draw charles is like WHATTT?? im like i think deuce is drawing 2...deuce says drawing? HA!...he looks very uncomfortable..charles starts flapping about a boat at this point some guy is like please excort this guy out before he has a hernia...charles starts saying this is my money you *****er im not going anywhere till the hand is played..i give it another 15 seconds and call with queen high..deuce painfully flips over 78 and there are shocks and gasps all around..river is a 4..charles is like OMFFFFFFGG thats the best play i have ever seen in my life..deuce looks like a broken man all grey and sweaty..i pay back my staker and head home and even grab my fat girlfriend a 3 piece and coleslaw as soon as i walk in the door she is like how much did you lose???? I dont say a word and just give her the bag of chicken..i had grind on the mind and I was pleased with my game...that was all that mattered to me...

38 An open letter to Howard Lederer and FT (WEAK SECURITY HAS TO CHANGE/ WE WANT BETTER)

Hi Howaerd

The amount of people having their accounts logged into from overseas people and having their money stolen by crotch monkeys is making me want to punch you. A good guy called tompork, a very good and honest guy just got mugged because of YOU! i am writing for people like tompork. we will stand and be heard as a poker family. my family is BBV but NVG has some blood of mine too. I fight for all poker players... I am going to write to the president about poker.

What do you think you are doing letting people get robbed and then saying OOPS YOUR FAULT..YOUR SUPPORT PEOPLE ARE MORONS! they need a slap in the melon. they never answr the question you ask and just give you sum BSBS and send you on your way..their replies are as useful as anthrax on a kleenex..you siteis really sending me on tilt right now..makes me want to go and do something stupid like put an egg in a microwave or headbutt a tree trunk. your site makes me mental howaerd./ im so tilted right now.

you blame us for having a *****ty pentium 1 or norton anti diesese mini version??? hell no howard, hell no show some damn integrity and put your balls out there for once. dnt make me come down there howard youll be eating more than david greys cheeseburger.

A player always has some blame when it comes to being hacked and robbed I mean if you walk down a bad alley with just a flick comb it doesnt take an advance meta game to know you are going to get *****ed up. but this if for hundreds of thousands of dollar. (TOMPORK IS A GOOD MAN WITH A GOOD DAMN HEART, A BIG POKER HEART) but you are the poker host.. WOWOWOW. your system should be secure and we cannot expect anything less as players..thats like leaving my dog with you and you let somebody smuggle heroin in his butt plugger. right now, your security measures are tilting me so hard, Howard. you better stop messing around and fix this NOW!

why the hell should we trust FT when you just let the money vanish and never give any back and let these people just go joyriding with the damn funds you allow the thelma and louise of poker? you better start shooting these bitches.

If you cannot give US (YOUR BREAD AND BUTTER) confirmation that that this is your number 1 priority for all us players at 2+2 and all over the internet we are going to do something *****ing crazy and start playing at swank poker or even go where joe hatchem plays.

this is your four minute warning. and thats all you got 4 minutes cus youve had a month and havent done anything..wtf are you doing over there?? you better listen up and take our lead on this. we aint playing around anymore. Im damn busto living like a field mouse out of action butive got so much damn love and respect for poker players that im still putting my blood sweat and tears in this game. My dad gave his life to poker and now i'm giving mine.

"grind on the mind"

39 Brag: I have a son and am playing the 35k on FT

HI BBV..I havent been around because omg I hate to say this it makes me want to throw up or drop a fridge on my toes but yes I had to take a damn job..a 9 to 5..i did have thoughts of killing myself..my father would have laughed at me and said WT F are you doing working for the man..he used to say "NO son of ine is working for the man!! ive failed my father..myself and the whole poker world..everymorning when I woke up I couldnt even bring myself to knock one out..my fat g/f said she finally respected me..this made me feel worse..she said my father got you this job the laast you could do is go to workkk..she said you are going to be a PAPA soon niche..time to grow up..I looked at her with the most intense look of pain I said you dont understand me and youve never understood poker..its not just a game for me..its never been a game..its a way of life i like living on the edge like chip did ..its all ive been a part of, its all ive ever known..poker players are the only people who have ever loved me..larry longlegs used to put me in action when he did not have a pot to piss in himself..he had faith in my mtt and cash instincts..in the past I had made bread for him and his family paid their rent and i paid for the special glasses that his young daughter needed...people only see the bad side of poker..they dont see what people give back..they dont see poker players helping poker players..where in the world can you hold your head high ask fora thousand and he will give it yo you because he trusts you and he believes in you and he knows one day when hes under a bus I will pull that same man out..my dad always said dont forget poker players even when you are running hot for months and you think you are a big shot..you aint a big shot niche and I will still crush you and your ego heads up..then he would give me a look like he knew he didnt fully believe what he said and we would nod and his eyes would slightly fill with tears as if he was saying to me that he knew I had become better player than he ever was and he was secretly proud..he would just send me out of the kitchen before I had to see him upset..

.so anyway I got fired from my job for watching GuS tv fullflush and durrrr and some MILF porn at the same ...the boss said I was a joke..called me incompetent or whatever I aint trying tonhear that **** i havent pissed myself since the last time I was busto..he called my fat girlfriends fat father who said he had to let me go which meeant he came to the house and him and his fat daughter tried to talk sense to me I just blocked out all the sounds and read 2+2 seeing if I could get a stake..so her fat father eventually left after id told him to go be a roadkill collector..and my fat g/f was giving me the silent treatment which was amazing.. then today my fat girlfriend broke her silent treatment after 2 hours WTTTTTTTTT.. starts complaining about belly pains right in the middle of a tournament on FT when i've got desperate grind on the mind

im thinking like its probably doughnuts she says no its worse than that im like listen bitch i need this **** baddd I am going to end up stacking off light because of your damn jibberjabber go and run around the block or someting shes like OMGGGGGGG you insensitive asswipe im about to say something truly evil but Id managed to 4 bet light the ten dew and make the crotch monkey muck so fast.. I fist pump flash gordon...so my fat girlfriend sits in a chair next to me and she is panting like a damn sea lion with its tongue out..for that moment in time I was truly disgusted in her but I did not say anything..I stared at her the way you stare at a person when they have booger cargo..she says omggg the pain is gettingg woooooorrseee....then suddenly she floods the livin room im LIKE WTTTTTTTT EWWWWWW you just pissed yourself what a dirty bitch.

.shes like no my waters just broke omg.. im like I do not understand your words. shes like the babys on the way the babys on the way, im like well you better get your ass to the hospital..she wants me to take her im like my car is jacked and i am in a tournament I can not piggy back you if I was zeus what am I supposed to do?? phone your dad..She wassitting down and complaining about pains all the time waiting for her dad to show up im like cant you go in the kitchen you are tilting the **** outta me..she says you dont understand youll never understand what us women do for you, you dont deserve it I said you didnt have to jump on my glitterstick did you??..so anyway her dad shows up and shes like why are you just sitting there OH MY GOD..im like what? my dad was not at the presence of my birth I am following tradition plus I need to take down this damn

tournament she waddles out of the door crying I look out the window her dad looks
pisssssssssed.my fat girlfriend is holding him back..like he wants to come in and fight me? I flip
him the double bird and grab my crotch and lock the door..so anyway I crash out of the damn
tournamnent on the ****ing bubble and im so pissed that I insterted two fingers into my nose and
pushed up really hard and said a weird african word.I completely forgot about my fat girlfriend
going to the hospital and fell asleep watching high stakes season 2

next thing I get a phonecall its my fat girlfriends fat father the chubby train saying I have a
son...IM LIKE THATS THE NUTSSSSSSSSSSSSSSSSSSSSSSSSSSSSSS OH ****TTTTTTTTTTTTTT THATS
THE DAMN NUTS does he have black hair like stu ungar???? hes like shut up. get your ass to the
hospital, im like how about you go and get grimmed by a falling coconut??? besides I cant get
there, he says if you dont come down here and be with my daughter I swear the next time I see
you I will run you down I will quite literally do a hit and run.. IM LIKE
WTFEE FFF you dont need a damn car for
that..so I eventually get down to the hospital and I walk in and look at my fat girlfriend and im
thinking wow you are a mess, the baby is laying across her massive milk vouchers and I walk
around and stare at this baby for about 5 minutes I cant take my eyes off
it..WOWWWWWWWWWWWWW, she says why arent you saying anything??? im like why do babies look
like aliens.. she said aAWWWWWWWWWWWWWWWWWWWWWWWWWWWWW dont be so mean hes just like his
daddy...

I did feel quite good about that but not as good as flopping trips with the funky suited 10 dewey
when the crotch monkey clearly has aces and doing the fist pump funky chicken ...shes like do you
want to hold him im like no ty can we go home now..I had to wait damn hours before we could go
home I kept asking this nurse why cant we leave and take ungar home.. she was like sir! your wife
has just given birth!! all stuck up im like that is not my wife and you are a salty bitch.. but im
home now with my baby son and hes awesome I'm sitting him on my lap while I play the 35k for
some run good..girlfriend said his name is not ungar and he is NEVER playing poker and she said
this should be a wake up call im like this doesnt change anything... Ive got grind on the mind

I even had the nut diamond and make the call cus my dad is like u have this little scallywag crushed under logs..so I call and this is what happens..yes im in a world of pain at this point i just dont give a **** anymore..i tried to break a vase with my head big mistake it just went DONNGGGG and i felt dizzy as crap and fell over..then i went to the window and whenever someone walked past I shouted random cuss words at them..

im broke as hell and i probably smell bad whats the point of washing if you dont leave the house and spend all day trying to get in action my hair is getting really long im pale like a vampire now.. i wish it was just me and the open road maybe I would be crushing the WSOP right now hanging out with brad booths drunk ass

whats the point Im never gonna make it thats how I feel, the poker gods kick planets in my face..even phil gordon is better than me whata joke..i cant take it anymore..having over 100k and then returning to these nickel and dimes is bad enough, but running like a sausage? wtf..I haven't even been able to grind hardly atall since little chip arrived, my fat girlfriend uses him as an excuse for everything..now shes too lazy to breast feed and wants the baby on formula ASAP??????? Im like no bitch FEED THE THE BABT BY TIT you must have A SWIMMING POOL IN RESERVE IN THOSE BIG UDDERS all u do is sit there drinking soda and farting your ass off i shouldnt have to listen to a woman of your size fart..this is ridiculous please stop eating so damn much..god she is going to be wanting sex soon that is going to feel like humping a wardrobe and did i mention her stretchmarks are too much i cant get a hardy with that **** im sorry..blame nature dont blame me why is it my fault if i cant get a stiffy ..so i watch pornhub redtube youporn whats the big deal maybe if you let me grind a bit more i wouldnt watch so much porn and give you some sex maybe from the back..

I HATE THIS GAME SOMETIMES. I FEEL LIKEIM the crusts on AN OMAHA SANDWICH..WHY DO I TRY..WHY DO I LIVE..WE LIVE WE DIE..I COULD HAVE BEEN AN ANT...I GUESS THATS A PLUS AND I NEVER CAUGHT HERPES OF THE BLISTER-SISTER BUT SOMETIMES I WISH I HAD MADE BACKGAMMON MY GAME BECAUSE IT DRIVES ME BAT-**** CRAZY AND I THINK WHATS THE DAMN POINT..A DAMN IDIOT HAS A BUNCH OF MY MONEY AND HE IS IN THE PEN BECAUSE HE LIKES TO THINK HE CAN ROB A STORE WITH A FIRE EXTINGUISHER>???? WTF IS THAT ****.

look im so sorry to vent BBV, i hope you are all winning..i wish you all well i havent had much heart to post recently i do read posts but ide rather take the background role because i feel ashamed i guess everyone hates me now anyway..ive gotta face upto never having those crocodile shoes or a bracet and elephant foot umbrella stand.. i mean i was hoping to comeback and make an "I MADE IT! thread but ive got more chance of having a threeseome with obama and michelle and maybe i should just quit now and get a 9 to 5 and kiss corporate ass for change and a crummy pension then live out my last days squinting and pissing myself..and i probably couldnt even afford a trailer in Basra by that point so may aswell just admit defeat beat myself with my own shoes

WHATS THE POINT OF BEING EXLOITED AND LIVING THAT DUMB LIFE. MY DAD SAYS DONT BE A LITTLE BITCH KEEP FIGHTING, im up here with ungar playing 6 handed you wish you were me! I remember one time back when my father was a big winner in the 10/20 game I was upset one night because i played some dumb video poker and got banned from casino because i pulled the machine over..he turned to me and said everything was going to be ok and never forget that one day you are so broke you are drinking your own spit the next day you are playing foozball naked while a bunch of strippers bring you cocktails and make out in your pool and call you daddy cool..

his words are all i have left in this world. and a few bbv friends who never stopped believing in me..even gobboboy does..i guess thats something..

42 brag: fat girlfriend made me chicken nuggets while i was grinding

I was grinding these soul destroying 90 mans on FT and she said she was going to cook us dinner because she was feeling geneorous. what kinda **** is that. she puts chip on my lap and i let his little hand do all the clicking especially all-in shoves and I talk a little bit of strategy with him mainly the value of position and slow playing big pairs at the end of mtts

she made me 8 nuggets. and she had 27 nuggets. she was burning her fingers on the hot fat while they were still cooking trying to get one to grub on. i am so sick of how selfish she is. we went to an all you can eat buffet once and she ate so much she was farting all the way home in the car and I think she almost sharted. she also laughs at me because she can out eat me at any meal time. I tried to beat her once and ate 23 pootatos but I almost threw up

i am sitting there trying to rambo a cash game with 16 dollars PLO and final table a 90 man on a stake because we need \$ and she just complains that we are broke every day and she wishes she had met a better man. I was like why dont you go spread your thunder thighs for tod brunson i bet he hasnt had any in awhile. she doesnt even know who tod is. she googled him and said hubba hubba. im like whatever bitch you would crush eachother.

she sends me on negreanutilt everyday. she said she eats so much food because she needs to keep her strength up to look after little chip because she is basically a single mom now because I am married to poker for life and basially a loser i said no bitch you need to stop eating food from a wheelbarrow but yes poker is more interesting than you.. your voice chills me to the bone and you are as boring as beans. go make your nightly phonecall to skank#1 and gossip about everyones affairs. I said she wouldnt last 2 minutes in the poker world.I bet phil hellmuth doesnt get this kinda **** when he gets home from the big game... I bet he gets pancakes a bathrobe and a hand-jive.

my EV always goes down when she starts nagging me which is constant pressure...even when she is being nice or trys to do something special for us i have to fake delight.she once made a recording of herself moaning for my birthday.. it was horrible. imagine an ogre scratching his bumhole and you will come close to understanding how it made me feel. she expected sex that night but i had to fake an injury. she wore some stockings that made her legs look like submarines

one day when chip is older and he knows how to play poker..maybe when he is 6 or 7 i am going to take him and head back to vegas with me because that is where my heart is. my dads heart is in nevada and i feel him touch me everytime i go back there. everytime i enter a card room i am thinking about my dad. Sometimes I walk over to the game and the seat he used to always be at and rub the back of his chair. sometimes I go and expect him to be there. i look for him...i hope to hear his voice above the slot machines calling me telling me to hurry the hell up because there is a sucker playing 5/10.

hopefully i can meet a new woman in vegas but not a hooker or crack head this time..someone steady and who only does casual drugs and maybe vodka binges..a girl who respects a poker player and all he stands for and will not complain when ive got grind on the mind or when I want to get frisky and scan a credit card between her ass cheeks.

43 Beat: forced to write a book to get back in action

eversince I can remember people said that im a writer but im not a damn writer im a poker player. .my mother used to make me write sonnets about greek gods when i was young and if a rhyming couplet didnt make sense she would blow a trumpet in my ear... my dad said writing would never stack chips and not to listen to the crazy bitch..she wanted me to do ballet dancing once and my dad said that it would turn me into a big tube steak loving queer...

I have been approached to wrote about my life and at first I said no way but I have been told that I could actually build a small roll from it and get back to the nosebleed stakes.. ive said in the past that id do pretty much anything to stay in action including sell body organs but i draw the line at jiggery pokery with a male so ive agreed to let my life be known in print..if any of you want a copy you can and ive told them to keep the price low because many of my poker family play 2nl and 25nl.

Im desperate now. very desperate. I have my son to think about and meeting a hot step-mother for him..I can live with not looking like mark wallberg and I can live with my son chip doing mustard colored craps on my bare legs.. I can even live without the crocodile shoes even though they are a symbol of my poker manhood and i would advise all of you to get a pair just to feel like your are a poker god and your woman is bound to put out more even when she is on the rag and your true friends wont hate you for getting them..true poker players do not wish death and destruction on another player or their bankroll..you should be happy for any player who makes a big score and pull themselves out of the the scum bucket they may even let your sip on the froth..many poker players who i respect have overtaken me in my time playing such as gobboboy and many others have slipped off the radar to become heroin junkies or transvestites thats the peaks and troughs of the game..shaundeeb was once my friend and railed me but now he ignores me on AIM so I assume he no longer likes me and that is fine..he is now a crotch monkey in my eyes..

Being broke in poker is like trying to pass kideny stones or being nob blocked by the grinch on christmas morning. everyone likes a christmas morning Blow job but id rather play 10/20 6 handed and sip egg nog and crush souls. im not just saying that beacuse my girlfriend is huge with an aircraft hanger between her legs i would say the same to any woman. if tiffany michelle was bent over in my hotel room begging daddy to come to bed and fill her tank i would say no bitch the fish are flapping frisk yourself on your own time your not worth my big blinds..there is nothing like playing poker for 2 straight days when your eyelids start to feel as heavy as dumbells and you playy for another 6 hours just to prove yourself that you are the man..sometimes it backfires and you wake up with poop caked to your ass hole. .but as my dad always said poker is about taking hits and making sacrifices..he used to say to me that you may be sacrificing school right now but I am giving you stronger weapons to fight the man and a diploma wont mean a pigeons tit when you are making \$500 an hour at poker...no son of mine is wearing a tie unless he wants to wear a one so he can bone corporate whores..

I hope youve all got grind on the mind dont listen to these guys who cry about the game is getting to tough to beat and they are thinking of going to work at some factory that plucks chickens.. they say there is no money to be made anymore ...dont listen, change your game use stealth against them, play on their fears, chnage gears and pull warewolf moves and punish them in the 3/6 which is the easeset game by far on full tilt.

and to the down and outs who have been dealt a bad hand..if you see me rolling in money giving richard ashby and paul wassicka the slip at PLO..i'll put you in action.. because I never forget the rail and I never forget my friends.

43.1 Beat: forced to write a book to get back in action

it wasnt that I didnt want to gamble and run up money that is all i ever wanted to do..I did play 3/6 5/10 and even short stack 10/20 with around 1500 dollars but yes I did have to cash out some at that time because i was under pressure to be a father...but ive realised that I should have taken more shots and risked being on the streets because at least I could have had a chance of getting my dream house in nevada with all my BBV family coming over for BBQ ribs and beers and maybe then my fat girlfriend would respect me or leave me..either is good

from now on its just poker and getting chip on my side so we can **** off back to vegas..i am going to fight in every session so me and him can live like sultans with gold taps on the tub

GRIND ON THE MIND

43.2 Beat: forced to write a book to get back in action

I like all music especially eye of the tiger when I go deep. when im running like an ostrich with a broken neck i like to listen to frank sintera thats life. I like all kinds of music except what my fat girlfriend listens to.. her favorite band is still O-town im like bitch they arent even alive anymore someone said they all died of aids or in a go karting incident

44 Beat:6th place in the 25k GTD

madmad'gm'ad ..I feel so ****ing tilted right now steam out of my damn nostrils I just just broke a window with my damn elbow and its cut to ****I feel no regret..I was dripping blood all over the kitchen when my fat girlfriend came home from seeing poppa bear.. thats what she calls him yea no **** hes hairy as **** his face is so round too kinda looks like a baboons ass and he has a big squished nose from where he got owned at judo hahah..my fat girlfriend is like WTF are you doing bleeding everywhere you are going to ruin the floooooorrrr wtffffffffffff what about the time you was on the rag and you let your juices spill all over the couch and you just flipped the pillow over you filthy skank.. im like i will bleed where the **** i want in my house bitch.. house rules why dont you go and bitch slap yourself in the jiggy-box this is the ****ing wrong time to test me..she said something in her gruff voice about poker being poison and asked where chip was im like hes asleep i left him watching rounders... she went up stairs making what could only be compared to stampeding elephants and slammed the door im like i dont wanna hear no O-town from down here bitch stay in your cave dwelling ty vm

how the hell can the poker gods piss in my face every damn time i go deep in a mtt..they let me get close with one hand on the cheese and then they use my head as a cannonball.. my good friend twoplustwoforu who is a great player also known as barbwire320 on FT staked me \$26 because im broke and he sent me out into the warzone with a hungry belly..I was hoping I could maybe flush out some monkeys and maybe work my way back up to where I can slap paul wassicka around at the 10/20..I did a lap around the backyard and screamed at the sky..I was ready..i had the house to myself too so i could grind without my fat girlfriend asking me every ten minutes to adjust her flab or change a diaper..lazy bitch.. and i also knew I could bang one out with the curtains open..I like grinding in the nude and I felt like a nice cream pie compilation..I was playing well built a stack with hardly any showdowns balancing my range like i was phil galfon I was robbing pots and making some sexy squeeze plays...my dad kept saying gogogo in my ear I felt like I was gonna put things right get some money and live the life i was destined to live..the life of a true grinder waking up at high noon to play an ept and then fly to cameroon to get my pubes braided or whatever the **** I want because im wearing the crocodile shoes and money aint a thing.. thats when it happened..

when I lost I grinded my teeth so hard and punched myself then hit my forehead with a can of soda many times.. felt as if I had a partial stroke at that point because I heard a clicking sound in my head and my hand went numb and my arm was tired like I couldnt lift it but then i realised it was just tired from jacking off..so I never quit ive got grind on the mind and 8 mayo sandwiches true poker players dont buckle under pressure they thrive in the shark infested waters and they never quit until they are ballin hard at life with a thermapedic bed like durrr ms pacman in the elevator..so I grind my way back through the shoals of fish spearing a few and exiting souls from skulls like ive got an egyptian voodoo hook I make the final table and im upto 1,000,000 in chips I feel on my a game my dad said it was my b game but im never good enough for him..i remember thinking i wish the million was cash so i could play richard ashyvy and plus david benyamine is back and he may be able to drive a golf ball 300 yards and beat the ashman but hes not taking my name..im cruising at this point and thats when I got shot through the heart by howard lederer his big sausage fingers stealing my cheese away I always imagine him with whiskers..

45 My Buddy Bob Wire Got A Tilt Problem

I got a friend Bob Wire and we are partners in grind he could have the shirt off my back or my socks for mittens...hes a good player but he would be a great player and crush ansky in an elevator shaft but hes a bi-polar tilt monkey..I dont know what to do he sends me on tilt every day with his endless ****ing rants..he always starts out positive like he can conquer the world send gobbo back to his hole but look how quick it all changes.

Bob Wire (02:27:09): starting now
Bob Wire (02:27:34): FK
Bob Wire (02:27:34): MY
Bob Wire (02:27:35): LIFE
Bob Wire (02:27:35): DUDE
Bob Wire (02:27:35): god
Bob Wire (02:27:38): busto in the 40k
Bob Wire (02:27:41): NO ****ING CARDS AT ANY POINT
Bob Wire (02:27:46): CANT EVEN CASH
Bob Wire (02:27:48): IN A ****ING
Bob Wire (02:27:49): DONKAMENT
Bob Wire (02:27:50): I AM THE WORST MAN
Bob Wire (02:28:04): MUST BE ****ING NICE TO MAKE MONEY AT THIS PATHETIC ****IN GAME

Bob Wire (06:54:12): IF THERE IS A GOD
Bob Wire (06:54:13): or my dead dog is watching
Bob Wire (06:54:14): plz help me win

Bob Wire can be alone in his room with a candle burning but on the inside hes ready to go bananas over losing one buy-in at PLO..he has been across from me in an MTT and suddenly youwill hear a fist slam and some yelling.. he woud be like "HEY NICHE WHERE THE **** ARE YOU????..im ****in done!!! my career is over man!! its not worth it to me anymore!..i cant win ever.i quit. i'm the worst man. please dont say i am good. Please.i suck so bad and i am the worlds worst poker player and im done ranting thanks."

one time I put him in action itwas like my last \$55 for some MTT and hes sitting there with all the crotch monkeys and hes like "man if we dont win this im gonna be flossing my teeth with my shoelaces" He takes a bad beat first hand and im like cmon man dont tilt like me be strong like scarface and he turns to me and says "hope we go busto" and just ships it all in with j 7 with action-traffic infront. That kind of broke my heart.

I put him in any MTT I can afford and even the ones I cant afford and he tilts like an epileptic scarecrow in some cash games while I was on the rail and be like "glad to be blowing the last of our bankroll with ace four offsuit" then he starts going on about "PHIL HELLMUTH HAS 12 ****ING BRACELETS AND MILLIONS OF DOLLARS AND I CANT EVEN BEAT STUPID **** MICROSTAKES CHEESEBURGER DONKAMENTS..sometimes i just wonder how ppl like andrew robl made it and im stuck here" I was like you are stuck there because you lose your damn marbles after the smallest thing and run off to snap your toothbrushes..I go on tilt and have smashed a fair few windows in my time, busted my shin bone even set myself on fire and got 33% flush draw burns but you are sitting there on my damn money with nothing to lose just punting all our **** out of the damn stadium..WTF BOB WTF.thats when he said I was the worst player ever and my vpip was pathetic..he stood up and was like "HEADS UP FOR ROLLS??" IM LIKE "WE DONT EVEN HAVE A ROLL BOB YOU ****ING IDIOT"

...He was getting heated and was holding up the 2/4 game and the dealer said "excuse me sir, it's your turn" thats when he screwed up his face like he was about to drag her by the hair out into the parking lot after throwin a drink in her pretty face.. he called the dealer a little bitch-tit and started ranting at her about how full tilt has a random shuffle and she knows nothing about how algorithmys make him lose sleep at night...he also believes the rumour that KFC makes black people impotent..he has been banned from 2 casinos once for violence and verbal harrasment and the other time for sexual deviance i believe he was caught being a peeper looking down an asian broads top with a Twin-D rack..we were all looking but Bob Managed to drop a chip down her cleavage and tried to get it back even after she started screaming..he had his hand right in her bra he got very mad "stay still you dumb viet-cong. give me my damn chip and take deez niggedy-nuts"... we were all in shock...it was all on cctv..

Because Bob got banned from casinos he started playing online more. He likes to grind on his porch but hates the wildlife.

Bob Wire (00:37:37): god
Bob Wire (00:37:40): i got bit by a spider last night
Bob Wire (00:37:57): on my left hand, on the bottom/right side of my thumb
Bob Wire (00:38:06): where the thumb connects to the hand
Bob Wire (00:38:26): itching it like a mofo but it doesnt help
Bob Wire (00:39:55): sniped me while i was playing 3/6
Bob Wire (00:39:58): on my porch

He sits on full tilt begging brad booth to play him and when he wont answer him he just calls him a lard-ass. But Bob Wire playing online tilts me more and more everyday.. He calls me all the time of the day and night. One night he called me at 4am just to say he had changed his country to romania on full tilt and that the panda was no longer working out..My fat girlfriend got sick of the phone ringing in the early hours of the morning from bob wire so she blocked his phone number and now when he loses he goes outside his house to the payphone on the corner to call me he says its just the variance but I should be aiming to ditch the fat bitch..Just yesterday he called me and I was like "HELLO?" he doesnt eve say hi but "JUST PUNTED MY ****ING FREEROLL WITH 9 HIGH ON A BLUFF IM QUITTING POKER NICHE ...not worth wasting my ***** life" then he hangs up. 5 mins later he calls me up to say how hes crushing the PLO droolers on ultimate bet asking if I want to play the double deuce." Im like sure cus hell im out of action and if I can get a nut im there and willing to give 100% for the family.. Bob's moods are never stable for very long

Bob Wire (03:31:51): WEEE
Bob Wire (03:31:52): LOSE MORE
Bob Wire (03:31:53): WIRE
Bob Wire (03:31:54): AWESOME LFIE
Bob Wire (03:31:55): PUNTING
Bob Wire (03:31:57): THOUSANDS IN EQUITY
Bob Wire (03:31:58): WHERE R U
Bob Wire (03:31:59): SPEAK
Bob Wire (03:31:59): GOD
Bob Wire (03:32:03): TILT
Bob Wire (03:32:03): THE
Bob Wire (03:32:04): ****
Bob Wire (03:32:04): ****

he said this after he lost 190 chips at the first level of a 90 man sit n go on Full Tilt. It's like a ticking timebomb whenever hes around and I just dont know what to do to detilt him apart from encourage him to smoke some sticky ick pop a xanax and imagine howard lederer as human pinada

I wish I knew what to say to Bob.. my dad always said let a fiery poker player bleed and burn, let them feel their own piss boiling in their kidneys, let them foam at the lips, let them holler and smash and curse themselves and fire-poke a rabid-prossy in a backstreet pull her putrid panties to the side after a 1 outer..all poker players must go through this Niche..Then one day they will awaken and become fearless assassins of the felt hardened by the ice- winds of variance that go gusting through their veins.. your biggest enemy becomes your friend and it starts to print you cash money..and thats why we grind so hard that we take the color off the cards....I never forgot that...

46 Brag: crushed a \$100 MTT for my buddy larry longlegs

So my friend larry longlegs stakes me in the 1hundo-freez at the casino and hes like high 5 kingggggggggggg lets do this!! i have to jump and high 5 that lanky streak of piss..but ive got grind on the mind and im hungrier than mike the mouth fresh outta jail..im playing for quarter action as a favor and because larry is almost homeless..there will come a time when im pissing myself to keep warm under a bridge and he will offer me his jolly green giant hand so im not worried..we are poker family this is how we live

im at the first table getting a feel for the players, fumbling my chips like a true stodge my first instinct is STEAM ROLLLLLLLLLL, table is soft as cow pattys.. i pick up the funky-seben-4 -heaven suited UTG and I raise 3x reppin the monster munch, they all fold except this big bitch in late pos with tatoos of upside meerkats on her forearms everytime she breathes in there isthis loud wheezing kind of like a plumbing works..she looks at me and is like you look uncomfortable larry yells GO KING, she min-raises, I min re-raise and give her the ice daggers she insta-mucks...larry is like BINK! and does his little dance and pretends hes hitting the 3-pointer for the lakers...

i soon get the fat stack at the table, and we have a new dealer shes cute as a button i know shes gonna deal me the HEAT, i can just feel it like channeling the spirit fo my dead father when hes begging chip reese to get inside the booth and send his only son some run good..first hand I pick up the seven dew, and am annoyed because my instincts were wrong, second hand I get KK and raise it up, everyone folds..next hand I get KK again, i smile with my father.. I raise it up this guy says to this other guy at the table, what happens to people who take my blinds john??? tell him what happens? John grins and says they go BUSTO-OOOO. He just says I call. Flop comes QQ6. I bet and he shoves all in. I call. he flips over 1010. Larry is like WOO, taking names breaking-souls, the guy mumbles to himself and gets up talking about how bad I am, gets all up in my face and thats when larry towers over him while im stacking my chips and im ready for the next hand

I get moved tables a bunch of times stealing pots all over like a theif in the night soon im a the last table, got a bottle of cough meds beside me, larry is there like my bodyguard his arms crossed..that man would die for me no question but who could kill him, he looks like he could kill a dragon rip down a tree..there was this asian grinder at the last table and i swear he thought he was urindanger or maybe the other one with he eyeball that spins around in the socet likea disco ball, so anyway hes pulling some bull**** at the table hollywoodin hiding his 5k chips at the back of his stack everyone else cares, i dont care he keeps saying hes played a million hands online trying to make everyone think hes some great player larry tells him that ive played over million hands live and the kidjust says impossible and posts his ante..

it comes down to me asian guy and old pissy pants (he stinks) god does he smell bad kind alike pissy crud on the bottom of slippers rotting in the vegas sun near a dumpster with a dead gangster inside

asian kid busts the old dude, when it goes cc on the flop and he makes a set of 4s on the turn he does the fist pump and he looks happy to be heads up against me..ive been waiting all night to pull a counter to his virgin live poker ways and hollywoodin and finally get my chance..I pick up AA and raise 5 times out of turn and the dealer says NO NO sir, its not your turn, and thats when i say ok I will take my bet back and asian kids pupils dilate and he calls the floor and screams at the guy with the clipboard "NO THE BET MUS SAND THE BET MUST SAND"

So anyway they say i cant take my bet back oh cry me a ****ing river jimmy juanda ive got you crotch monkey larry knows too i dont pull this move on just anyone my dad always said pull it only on the deserving im not the kinda player to kill a lame horse, we can butt heads and i will shake your hand if your hand stands up but this kid was asking for some poker 101 classes and bobby hoff wasnt around to spit in his face like the good ole days... im sitting there looking kinda annoyed..then I hear it asian boy brimming sensing weakness he says "IM ARR IN" and shoves in

I give Larry his cash and he's so happy I take my share and pay it into the bank cuz I want to get it on Full Tilt ASAP so I can make my way to the nosebleeds..the next day I tell our poker buddy Bob Wire the news...

Bob Wire (19:28:52): HOW U THINK IM FEELIN RIGHT NOW OK

47 Do you have bad dreams about poker?

I went to bed early at 3am because i was so tilted I felt like I could punt the galaxy. my game has been better than ever lately my reads are tarot and my aggression is grizzly. but still the same boom town rat in a vat still owed thousands of dollars and im probably never seeing that ****ing money. over the last few days I had ran up \$100

to 1k three times and lost it all..lost AA vs Q8 suited all in pre to a drunk irishman who told me "id rater be looky than good laddie. hehe"Next hand I open shove my last 160 with AQs sending out the distress signal when im really holding the flares and rocket grenades Irishman calls with QJ and wins. he says "hehe". I want to break his face but I say gg while i squeeze my balls to the point of pain.

So im in bed i already had given up 5 times on knocking one out because i had the arm ache..so I close my eyes thats when I woke up and I was at my pc 18 tabling and suddenly the screen turned into a a hole in the wall and wild bill hickock grabs me and pulls me into the darkness,,im like NOOO i just got dealt aces in the BB"

suddenly im on a beach the sky is black but there is a sun, it looks like glowing piece of coal and keeps erupting into the sea. the air is hot and sticky like its been circulating in a tramps vest. I see these people on horses coming to get me, its howard lederer and a gang of monsters..they are drooling and wearing FT merchandise..A monster ina FT jersey is one of the strangest things ive ever seen except for allen cunninham

one monster stops to take a dump and howard lederer gives him a back hander..Howard approaches walking flat footed..he is dressed like king arthur but he is so fat and looks stuck in his armour.. so I run but my legs are made out of angel hair spaghetti and he catches me..he has gobbo on a leash..and the ears of luke schwartz on a necklace

they catch me and beat me to the ground gobbo starts panting with his tongue hanging out, his hair was as thin as the pubes on a starfish..he has 4 legs..Howard starts kicking me in the face and saying "Pay teh rake" then he says that I suck at poker and so does my dead beat father..thats when I see my father come flying down the beach screaming some kind of wild nonsense..the sight of your own dead father running down the beach naked and copping the full frontal is the one of the weirdest things I have ever seen but howard sends some kind of horse-goblin to get my father and my father starts running other way down the beach screaming I try to get up to help my father but they hold me down i felt a lump in my throat

howard had his big sword out and he was waving it around showing it off to everyone..the monsters were saying "oooooooo" "woooo" .i started praying for stu ungar and ship reese to help me..i scratched out AA in the sand because it was the only thing I could think of..howard grinned and chuckled and said "aces no good" and im like "Lets see a flop" he says "ok" and he draws his whole cards 10 8, and then he draws the flop 8 8 10 and says HAR HAR and eats a handful of quarters.. I shout out "RIGGED" and then he tells me to shut up and to open my mouth..i try not to at first but his sword is just too big and he forces his sword into my mouth..i can feel something warm in my mouth at that point..blood and fish

they start slitting me open throwing me on the rocks, stamping on me, taking out my heart, I spit blood at howard it sprays all over his armour.. gobbo licks it off.. Howard starts grinning from ear to ear through his sharp little teeth and the monsters start chanting like herad khan at the WSOP "WHO HAR WHO WHO HAR..WHO HAR WHO WHO HAR..thats when Bob Stupak rolled up in a wheel chair and started talking **** about danny negreanu then he ran over my face

Does anyone else dream about poker?

grind on the mind

48 Brag: Saw the ghost of my dead father

i cant believe this happened i am awe inspired i feel like i believe in hell and heaven and the netherworld this is like a once in a lifetime..this is much different from the time i went to his graveside and dealt us both cards and imagined we were playign heads up..I knew my dads game so well so i could tell what his move would be so I played it just like he would..i just played for hours I won because he always had 5 leaks that I could exploit but i never told him that..I just dropped him a 1k chip and said "ante up dad" and left him and the cards.. i was crying my eyes out on the drive home.. I was so broke that day had a band aid on my head from wrestling some hobo critter in his outdoor slippers, he grazed my head on the concrete said I was finished as a street fighter..i had been fighting to get in the game and i hate to fight from all the abuse i received as a child.. i freeze up.. thats why i am nice to people..do you know what its like to be shot repeatdely in the ass with a bb gun? what about being stuck halfway inside a grand piano? the only worse time i can think of is when my dad punished me for losing in an 10/20 limit game..he drove me around town and ate 9 burriotos then he rolled up the windows and just started farting for about 2 hours and told me to man up wouldnt let me out of the car..he said that next time he would put me in the trunk probably without bullet holes..this was like poker extreme training i know why my dad did stuff like that..he wanted me to be the best poker player in the world

..so I was grinding hard with my wing man buddy bob wire and larry longlegs on FT the usual **** was happening

I just glugged some cough meds punched myself in the ear and stuck my foot in the diaper bucket and yelled at the door..but i soon calmed down i was a little jittery after 3 bottles of cough meds..weird things have been happening lately i have been having some crazy poker dreams one was with barry greenstien in lord of the rings 3 handed with gollum..i also had a dream where peter eastgate was spitting all over me and he said "SHO ME YOUR CARDS" then a big swinging blade came down and cut him in half he was all circuit boards and bacon in the middle

..but what happened a few hours ago gives me the goose-nipples I turn around to get back to the grind and there is a figure in the room naked from the waist down it was my father.. i froze trying not to check the pecker he was wearing crocodile shoes...he kept groaning and wheezing saying "nosebleeeedsss. nosebleeds" his voice was like some kind of electric penguin..my fat girlfriend walked in with gumbo and saw my fathers dick and then it was over..she screamed and ran out of the room wobbling all over the place.. I tried to explain what had happened was fairly normal like seeing orbs in the woods but she has taken chip and gone to live with her daddy the tubby train so im trying to get back in action, and it gives me time to grind.. hopefully bob wire ships on stars so i can assault the 109s.

.I feel like ive got to make my dad proud more than ever before..he kind of looked in pain when he appeared like he was in poker purgatory trapped until I ship it big and buy a strip of land somewhere a big crib in vegas with his picture above the foozball table a 5 60" monitors full of pussy and high stakes PLO..hitting golfballs into the side of daniel negreanus house eating mayo sandwiches while i grind my heart out naked with a bucket of ice cold beers and my buddies outside working the bbq a spit roast pig marinading in cough syrup..the thing is with poker you have to believe, you have to visualise it..even the guy who went from a million to working at wendys picking the guts from under his finger nails jizzing on the nuggets or whatever..even he can make it back..i believe in him..hes what BBV is all about we live for the game, the pain makes us feel alive like pissing onto an electric fence one day i want to buy a fountain and chisel my dads name there in stone, out on the driveway a sculpture of a woman with huge tits holding rags.. the kind my dad would go for maybe a shaved pussy..I want to be able to pull up with my poker family in the white cadillac coupe deville and be reminded of my dad

I am now looking to expand the poker family..if you would like to be a part of it, love sick action and a sick team hungry for the life ive spoken about then get at me on AIM my name is : King Niche

48.1 Brag: Saw the ghost of my dead father

thanks guys i hope we all get back to the top someday..BBV is my favourite part of this site because its real...you guys are real poker players who live to get on the felt not like those red pros who just ignore everyone and worship the belly of howard.. keep grind on the mind because i know how quickly life can change..one day you are breaking into a windmill using a bag of grain for a pillow the next day you are using a 10k brick for a paper weight and being shaved by janice while you squeeze the head rests...only poker players understand what its like to jump across the cavern, fall on your cranium and expose your cauliflower or grabbing a vine and landing in the 5/10 and never looking back...its what we live for..

49 Beat: 6 dolla 90 mans make me want to off myself

im mad upset constipated and ive ran out of prunes..I get a couple of bullets for the 90 mans hoping to sack up some romanians and lynch some frenchies maybe crack a brazil nut... but instead my horror sunday rolls over into monday..I go deep with QQ yesterday and lose to AJ on the turn he spikes an ace then im shortstacked like pip hellmuth in the BB and I get AJ and shove same ****ing guy calls me with QJ and spiked a queen..if that guy had been near me I would have slapped him upside the head and used telepathy to it made me a bit crazy..i sat there after the beat wondering why i go deep so much and lose to the jellyfish kiss.. i thought about it for way to long first im went crosseyed and my eyes would not go back to normal kind of scared me i dont want to look like the hunchback of notradamus.. then i realised I had been chewing a cig butt the whole time almost barfed up a beard

my stakers think i am unlucky.. cursed.. even people i have won them 4 figures they just abandon me even though they have only spend a few hundo on me ..i must stink of death or maybe i am like that one friend who people never want to be with because when they goto the gas station they stuck the air pump up there ass.. people turn their back on me because they think im a loose canon but i only fire bullets when i can make the headshot..ive had so many poker friends over the years..most have stayed around me when im buying the meals, having parties in the penthouse and letting them drink all my complimentary champagne at the casion..but as soon as im flipping for cold taters they are nowhere to be seen..only a few special people have cared when I have been at my lowest and let me borrow their car, crash on the floor, eat thier butter throw me a chip and a chair here and there..I dont have hardly any poker friendswho want to be there for me when im getting mooned by the poker gods.. or when im making warewolf moves and running like ghandi from an ak47..

50 Brag: saw a fish short stacking at 3/6

my fat girlfriend was waddling around the house rearranging her chins and cursing the christmas tree cus we are busto this side of the 35th im like look bitch just calm the **** down will you for ****s sake if you would shut your gigantic corn bread hole for one ****ing second maybe I could find an easy mark and buy you your damn waffle maker and maybe get chip a chip set and a toy gun..so Im scanning the tables all the while im being slapped on the back of the head..my fat girlfriend is like how are you going to make money with 66cents im like pass me the phone bitch my credit is as good as david benyamines wifes tits rocking on a waterbed..that didnt go down very well..so anyway I give my buddy bob wire a call he is right in the middle of a heads up sit and go and im like how u running bob...HES LIKE HOW THE **** DO YOU THINK IM RUNNING EVERY DAY THIS GAME MAKES ME WANT TO BEAT UP AN OLD LADY WITH A METAL BAT..SERIOUSLY I COULD KICK A BABY RIGHT NOW JSDNJSDNJSDJSDSJ..im like can you lend me 500 hes like sure..

So I saw terrdactyle sitting there short stacking 3/6 looking like an easy mark with his john trjolta haircut..I thought maybe i was a favourite against this guy who rocks the open toes.. bob wire had an essay on this guys leaks and he would always recite me durrrs leaks over a heineken..bob wire would be a favourite against durrr over 10 000 hands and it pains me to say that because me and bob have a rivalry and i quite like durrr but id take bob any day of the week against durrrr..bob has a photographic memory, he can beat chess, spades, gin, rummy, bridge stud razz..this guy talks trajectory and the optimal flight path of a frisby for light conversation in the park..plus he knows everything about the poker world..he was the guy who told me that david skalansky keeps dildos in the glove box..if he wasnt such a tiltatron prone to breaking laptops and cursing out and slapping bus drivers he would be playing in bobbys room right now and id put up my house and my fat girlfriend for a slice of that action..

So my fat girlfriend is wrinkling up her pug nose asking how I got 500 in my account DID YOU STEAL IT? WTF how the **** can I steal it I made one phone call and ive been sitting in this chair the whole time mind your own business and tuck your tits in ..****..so anyway she bursts into tears as usual always crying because of the moon and period clots BS..Im sick of this ****..I am so homesick its unreal..there is nowhere to spend christmas except vegas but she swears she wont be seen dead in vegas..thats a win win for me, cus the day i go there im going alone anyway..my real family are hookers and hobos and all the poker grinders..you always no where you are with a hobo and a hooker..this one hobo ole grindmasser used to run all over town for me buying me cheesesteaks..I told my fat girlfriend a zillion times that if we could get our asses to vegas I would be in action all the time and we wouldnt have to worry about things like christmas anymore she says if you think im hanging out with sluts and tramps you are deluded..I hate it when she talks down to sluts as if she hasnt taken a wedge of cake in the butt hole..such a ****ing snob...these people are real people..these people will take a cap in their ass for your lifeblood..tell me one spineless lawyer who would do some **** like that? give a hobo a cup of soup and place out of the wind and hes happy now thats real living..

so anways I finally had the room to myself and I took terradactlle for a few hundo..Full Tilt Poker, \$3/6 Pot limit Omaha Cash Games, 2 Players

50.1 Brag: saw a fish short stacking at 3/6

christmas was a terrible affair..My cousin was there bragging about hitting more sets than dj sensei ..the turkey was dry and tasteless, my fat girlfriends cleavage was low and put me off my food..got into an argument with my fat girlfriends fat father over poker being a criminal offense..chip had the snuffles and cried the whole time..got crushed by a french donk heads up after getting it in good with a nuclear draw ..my best gift was socks and a telephone call from bob wire telling me how florida is awesome with juicy games and how im not there to capitalise

I hope you all had a better christmas than me, I would of had more fun spending it with skalansy and his gang of parakeets playing naked twister with a few old menopausal mares..even larry longlegs got mad pussy over christmas..some fillipino chiclet with a tube steak handle bar grip..

I hope 2010 is my turn to take shots at the big game, if not then you will probably find me at the bottom of a cliff, body all twisted up, caked in blood with no pulse, and skid marks in my draws with a roll of quarters in my shirt pocket going out with a smile on my face

52 Beat: I run like a sausage at life

do you know what its like to max all your credit cards and pawn your father in laws chevy silverado..thats what I did and failed in every shot I took.. one of the home games was rigged but I still played because it was the only game going and im a true grinder..losing everything you own and getting into mountains of debt with no way out just like my daddy...he would be so proud..no he wouldnt he would call me a whiney little pussy hole..that hurts..but id still give anything to have him beat my pink ass with a buckle..you dont miss what youve got till they rake the pot..

ive been trying to rambo the live cash games because its my bread and pudding.. I call it riding the dragon...my poker buddy bob wire says that I need to stop living on that diving board at the top of the mountain..but i've never played safe..poker is risk..it sends endorphins to your brain sends blood up the tube steak..isnt that what we live for?

But i dont wanna end up like mike the mouth in jail betting on cockroaches, i dont want to end up like danny greanu with no hair trying to prove to to the internet players he can hang on like a tupee..i liked him better in HSP season 1 episode 1 when he bought in for a million and steamrolled..these days he just wants to check check and level himself..nuts like acorns

im pretty ****ing lonely right now..Bob Wire is on a downswing and his mother has started praying that he loses this tilted bob so hard because he is superstitious and bought some crystals for some anti jesus...Larry longlegs is living it up in peru..he called me saying how he is getting quite a few stds... and he met a virgin out there and had to google ways to get into her pussy..lucky bastard...i told him that you either need to get her to ride a horse or hump with a horse to break the hyphen...hes like HAHA THATS MY KING

hes a good guy and decided to go and live with a bunch of penguins and help the starving kids and expand his soul... the guy is a giant his soul must be like a planet..his hands can probably crush coconuts his legs are long and dangly his **** must be huge..they call him gringo in peru and gave him a giant bed and inflatable piano..he said that while he grinds on stars the nuns give him high fives..sick life

meanwhile im waking up with ashy mouth..its pretty sad when the only thing that brightens your day is prolonging a dump..its tough being away from vegas..its tough waking up next to my fat girlfriend the mammottotamus..little chip is geting big and he is who i live for and the dream of returning to vegas hitting up my fathers grave and then going to the nugget..maybe those guys have forgotten about me...they used to say "There goes the progeny Niche Jnr"..i felt like somebody..i feel dead here...dead inside...life right now is seven deuce

I cant see a way out. I was listening to a song earlier life goes on by 2pac and i started imagining my own poker funeral..and this is what I wrote down

bury me smiling with chips in my pocket have a sit n go funeral let every player prop it let the railbirds that I used to know from way before fleece my pockets from my head to my toe give me a paper and pen so i can write about my degen a bran new decks of cards in case I dont get in... tell all my family im a grinder nobody cries when we die we poker players let us ride..

I hope you all are looking after yourselves and have grind on the mind h

53 Beat: I dream of alan meltzer riding ponies

Im still here down but not out, still alive and kicking well sometimes it feels more like a coma and im frothing at the mouth but my dad always said life is a knife coming at you..im still living with the fat bitch god knows why this dementor kills my soul and gives me the ****ty shivers everytime she talks its like white noise from the other side.. maybe coming from her ***** i dont know...

I have been playing some live poker lately and winning a bit at the 200nl game but only enough to keep food in the house and the fat bitch off my nuts ...when I was without a family and a hardcore grinder food didnt mean **** to me i remember one night getting home from a mega session and eating a moskeeto my cupboards were bare as a squirrels pantry but something inside me said just get your liquids and grind it out..sometimes id grind sessions and take a can of soup with me me and bob wire would share it..I met a fat guy playing live and they call him gruffalo he huge and he wears track pants and he carries his laptop like he is nursing a baby..he lives in the back of the casino when you look at his face you can tell he is squeezing out farts..well he told me that he won 47K playing FTP and lost it betting roulette and sports..I always find myself listening to bad beat stories even though they make me want to kill the person we all been down sniffing tail or caught up in brain jail and sometimes you just need an ear from a queer..queers are the best listeners in my experience or emotional bitches with loose flaps..anyway the guy tells me that he thought he had roulette system because he noticed that so many players spread chips across so many numbers not realising that the ball can only land on one number..when he said that i imagined all the facepalm combos of the internet galaxy float across a canvas I just said unlucky..I saw his cashier over his shoulder it said \$0.03 it made me feel better about myself and the fact that he was so fat he would need two plane seats..then i hate to say it but i imagined how he could ever sit on his toilet without breaking the porseylane ...I felt truly terrible for feeling this way about a down and out human..bob wire thought it was the funniest **** hes heard since he had the chance to call kristy gaze a rat bitch but I was disgusted in myself and gave him \$25..

Bob Wire has been spending a lot of time at my house because he has started doing kitchen karate at home and breaking everything in sight when he goes on tilt..I asked him why he comes to my place and he said its cus I havent got **** worth breaking..myfat girlfriend hates that we grind 4.40 rushs together side by side in our boxers...its no different than world war 1 sitting on a thunderbox together..im 2 old to worry about being gay id rather bond with a brother..sometimes I feel like im losing it when I play with Bob this guy is just 2 damn good he slaps me straight in the face and says "WHY ARE U SO DAMN SCARED OF GETTING DRAWN OUT ON KING THESE DAYS...WHY ARE YOU SO ****ING SCARED YOU LOUSY PIECE OF ****?" Im like "what bob?" hes like "STOP CHARGING THE GUY THE MAX WHEN DRAWING WHEN U KNOW HE BLUFFS WITH HIS ENTRE RANGE WHEN HE MISSES" he was right I wasnt thinking anymore i was stagnating evolution bottom feeder and he was chris ferguson rising...I even started saying "This is a call right?" Losing confidence in poker is like losing your load b4 the tits come out..I think i might try meditating or something..my fat girlfriend bought wii fit but she she never uses it i think she bought it just so she could feel like maybe she wouldnt be fat someday but she will always be fat..I need to get back to my love for the game like rod tidwall

I still watch some poker and have had some crazy dreams involving alan meltzer riding a pony i still think mike sexton one of the best and gobbo deserves more love and pussy..I kinda miss my buddy larry longlegs he moved to ireland recently because he heard about the luck of the irish but then he lands and bets all his money on a 15/1 dog in a race cause someon told him it was a sure thing...guy is easily lead impulsive and will stamp a skull till the marrow oozes out but ive never known someone so loyal..when we were younger people would say There goes jack and the beanstalk..i just hope he finds a nice irish ginger and puts his enormous tube in her hentai clam..I justw ant him to be happy...

keep grind on the mind BBV and when you feel like you couldnt freeroll into your sleep, think of the ones who never even had a chance to make it..you could be that guy inside for rape getting stabbed by a sharpened toothbrush having his meat pulled out..or you and your celly giving mutual blowjobs cus of lonliness an extacy...life is never easy...

54 Lies you heard from people playing live?

one guy told me he owned 500 houses and rented them all out..he also wore a fake gold watch and cheap fishermans hat..i put a read on him when i saw him in a 1/2 game..I doubt if he had that much money he would be breathing like alan meltzer on the treadmill for a 400\$ pot..

55 Beat: trash man

I had to take a job as a trash man. yea it kills me inside and all my future children. i come home every night smellin like asian pussy and wilting beans and i can kinda handle smellin of ass crack but when i would get home id be so ****ing tired and my fat girlfriend would be like have a wash.. wow bitch how can you say that when we once went camping for a week and you kept your yeast loaf in a zipper the whole time and expected me to eat it up like a custard tart..are you ****ing crazy you moose...shes always blaming me and her thyroid for everything..drives me insane i wish i could just set her up on a date with alan meltzer and let them go waddling off into the sunset together..apparently i need to stop callin her fat because it sparks some childhood flashbacks..she got fingered in a tree house or something, i called her a lucky bitch and she ****ing freaked at me..pools or tears her face was all swollen like an octopus and she cried for like 9 hours and her fat ass wasnt even in labor that long with chip..when her waters broke i thought i was on the titanic its a crazy sight seeing your fat girlfriend with her legs spread wide pushing a thing out of her streaky bacon basket..

Anyway, i feel like a traitor for taking another 9 till 5, but nobody has been putting me in action lately..i felt like pearljimm or mandy b..those red pros who have never even won a plastic keyring but somehow they still get that pro cheese..my buddy bob wire got a check bounced from FT for 12k and he swears he would shoot an arrow through howards neck and pin phil gordons **** to his forehead with a tent peg..hahah

I ****ing stink tonight. Imagine **** on fire baked in a pie then you had someone elses **** and u stir it up and then you bake it and you had some putrid puss infection and pussy juice thats been marinating in a hobos shoe for three straight days and you pass all that through a rotting corpse and let the corpse **** out the contents onto a vegas sidewalk and you let it ferment in the relentless sun. then after 24 hours you get down and you have a big ****ing sniff. yea thats how I smell.

but ive still got grind on the mind and one day ima be back in vegas risking stacks and risking HIV, staking everyone..they dont help me but i always help thats my weakness. so many times ive taken my social security and put it on a three legged horse just cus he needed it so bad .. I wanna get back to the felt with an ace in my belt flop a royal yacht and make a hooker melt

keep grind on the mind guys. and never forget that position is the pussy in the poker panties.

56 Beat: 19k locked up its like sweating an aids test

Who else is sweating like a sumo wrestler in a sauna? feel like howard lederer copped a squat in my lunchbox right now..****KKK ME TO TEARS...back in the day that money wouldnt mean **** to me id probably spend that on shoes in a year and throw down 5k on an elephant foot umbrella stand but damn I NEED THAT ****ING MONEY HOWARD YOU FRAKENSTEIN LOOKING ****...HOW the hell you gonna scam the poker family and rake us dry at the same time?? my poker buddy speedy eddy said he saw howard coming out of the flamingo with a damn grin on his face wearing shorts..he said he wanted to bitch slap him like david toe munster and throw him a few jabs to the flab...

Me and my buddy Bob Wire got money locked up and we both got bills to pay I got my kid chip and my fat girlfriend eats take out every night of the week except for candy day where she eats nothing but candy..she blames her period im like no your just fat and your thyroyd is out of control..how you gonna blame everything on the bleedin pussy? She ordered a triple bacon burger 20 nuggets fries a plain hamburger an apple pie and a muffin at the drive through I was so embarrassed I was like why cant you eat like a normal human..she lifted her face up from her bucket of coke and I thought wow you are a beast of the night bitch has the appetite of a T-rex and tilts the living **** out of me everyday...

so yea ive been in a bad mood for the last couple of days and she keeps asking me why why why why why in her husky trailer park voice...I cant tell her ive got that much money stuck cus she wouldnt understand non-poker playing bitch..and besides im still lying about my limp dick..it lasted like 6 months cus I couldnt bare it..it was like having sex with gobbo but yea she bought some damn viagra and oysters home one night..she ate all the oysters by herself and said she needed a good pounding because her ovums were ready or some crap..my heart sank to my boots when she said "im gonna sit on your face" wow i felt like 4/1 dog...ive never in my life felt as degraded as when the viagra kicked in and my junk wouldnt go down for hours.. then she lowered her bum cheeks onto my nose and i caught sight of a dingleberry nestled in forest of ass hair...gives me the goosenipples thinking about it...

so yea ive got cash locked up and i feel like im gonna lose this all in and probably have to take to the streets like tk cloutier and play the electric banjo or start running errands for the 10/20 regs to get a couple of buy ins..if you got money locked up and you are feeling like ending your life tonight I feel for you..this is one of the worst times in online poker history..somehow we gotta stay strong cus one thing ive learnt in life is bad beats will come no matter what and like chip reese said if you cant face adversity you will never be sitting around at the top of the mountain..my dad lost his net worth in bad investment once..he lost his car his house and even his health but he never complained to anyone about it..he got a \$200 stake and rebuilt the empire..i try to be like him instead if going on raging monkey tilt and wanting to run in a church with a machete..keep grind on the mind guys.

56.3 Beat: 19k locked up its like sweating an aids test

Ive been asked to post the dream I had about poker in BBV.

So im in bed i already had given up 5 times on knocking one out because i had the arm ache..so I close my eyes thats when I woke up and I was at my pc 18 tabling and suddenly the screen turned into a a hole in the wall and wild bill hickock grabs me and pulls me into the darkness,,im like NOOO i just got dealt aces in the BB"

suddenly im on a beach the sky is black but there is a sun, it looks like glowing piece of coal and keeps erupting into the sea. the air is hot and sticky like its been circulating in a tramps vest. I see these people on horses coming to get me, its howard lederer and a gang of monsters..they are drooling and wearing FT merchandise..A monster ina FT jersey is one of the strangest things ive ever seen except for allen cunninham

one monster stops to take a dump and howard lederer gives him a back hander..Howard approaches walking flat footed..he is dressed like king arthur but he is so fat and looks stuck in his armour.. so I run but my legs are made out of angel hair spaghetti and he catches me..he has gobbo on a leash..and the ears of luke schwartz on a necklace

they catch me and beat me to the ground gobbo starts panting with his tongue hanging out, his hair was as thin as the pubes on a starfish..he has 4 legs..Howard starts kicking me in the face and saying "Pay teh rake" then he says that I suck at poker and so does my dead beat father..thats when I see my father come flying down the beach screaming some kind of wild nonsense..the sight of your own dead father running down the beach naked and copping the full frontal is the one of

the weirdest things I have ever seen but howard sends some kind of horse-goblin to get my father and my father starts running other way down the beach screaming I try to get up to help my father but they hold me down i felt a lump in my throat

howard had his big sword out and he was waving it around showing it off to everyone..the monsters were saying "oooooooo" "woooo" .i started praying for stu ungar and ship reese to help me..i scratched out AA in the sand because it was the only thing I could think of..howard grinned and chuckled and said "aces no good" and im like "Lets see a flop" he says "ok" and he draws his whole cards 10 8, and then he draws the flop 8 8 10 and says HAR HAR and eats a handful of quarters.. I shout out "RIGGED" and then he tells me to shut up and to open my mouth..i try not to at first but his sword is just too big and he forces his sword into my mouth..i can feel something warm in my mouth at that point..blood and fish

they start slitting me open throwing me on the rocks, stamping on me, taking out my heart, I spit blood at howard it sprays all over his armour.. gobbo licks it off.. Howard starts grinning from ear to ear through his sharp little teeth and the monsters start chanting like herad khan at the WSOP "WHO HAR WHO WHO HAR..WHO HAR WHO WHO HAR..thats when Bob Stupak rolled up in a wheel chair and started talking **** about danny negreanu then he ran over my face

Does anyone else dream about poker?

57 Beat: I hate Howard and I hate Hero Poker

I've always been a live pro..i was born for that **** ever since my daddy said "count your ****ing outs you sperm bubble" I have been living and breathing this damn game..until my bankroll got blown up and i knocked up an obese doughgirl life was hella good, i had a lot of swagger huge pool of fish to feed on and poker buddies who would goto the trenches with me and take a bullet. I got oldschool players as brothers and even new blood like bob wire they call him the new lucky chewy except hes better and has a photographic memory and can counter punch any move u make, he just says "this game is like chess to me..i can make it 100% skill" and hes the only player ive had come close to convincing me

but anyway hellmuth says that this game is his life, but he doesnt know what it actually means to be a true grinder putting your whole roll on the line in a 5/10 game and leaving with nothing but skid marks..that guy can afford to ride hotdogs and is a huge nit how can you fold queens with 3 bigs this guy would get smashed to pieces in any home game ive ever played in, even skalansky would beat him and everyone knows this guy writes books cus he cant play poker..guy is like an impotent king bowser its embarrassing like durr being interviewed on CNN theres nothing in the sky tom you damn idiot look at the damn camera.. and learn to keep your mouth shut before you get locked in a damn trunk or stuck in ray bitars cheeseburger..these guys no guys who know guys..im talking about guys who could have negreanu admitting he sucks sausage with the quickiness..

so yea I was minding my own business working up a little roll had the whole crew in action more horses than las vegas park speedway eating pizza pockets watching the most hardcore porn i could find had grind on the mind and then what ****ing happens? Black Friday comes along and takes my whole roll everything id worked for i thought that guy with the whiskers was a nice guy he come a long way since he looked like a big ball of grease in a hawaian shirt and sucked out on my boy cloutier

but nah....

how you gonna take food out of the starving mouths of degens who need to buy diapers and cornflakes, oh 40 million isnt enough eh howie ok take 43 million and ferguson can have 80 million because he did the 1\$ bankroll challenge and cus he played poker online before they invented graphics? WTF.... I wanna penetrate howards gut with ninja stars...how the **** can u not 5 bet shove with AK when u got 50 mill behind..I hope he goes to jail for 21 years for what hes done to all of us and i bet annie got all his bricks hidden under her thermapedic that bitch annoys me more than tiffany michelle when she called the **** in the main event even though id smash her back doors in..

so yea Hero Poker what a piece of ****..you can deposit with plastic but as soon as u wanna take your chips to the cage they say u need a different method..so u go through all the right actions and they still wanna keep you in the gerbil wheel.. paying for the rims on CEO's Benz

**** that asian CEO who thinks he can round up all the myopic chinese fish and get some whales in the game....wat..dude that site has like 5 runners.. he better pray i dont fly through tokyo and pull some yakuza type crane kick..give me my money you damn crotch monkey..

im sick of the state of poker..im sick of ilsildur getting credit for anything..im sick of seeing andrew robil in a vest.. im sick of not being able to grind..im sick of faking an orgasm cus my girlfriend is now appraoching 600lbs..im sick of not being someone my kid can look upto...im sick of being busto..

ive been playing years and im a still a squirrel trying to get a nut helpin out at the soup kitchen for some run good but gettin locked out in every+ev spot

..maybe if i was friends with tony g my life would be different or maybe galfond would throw me a few cranberries.. but right now I got nothing coming to me soon..I got love for gobbo but he never returns my Pms I guess hes too busy with his chiwowa..I havent felt happy once since black friday and everything got so ****ed up..the DOJ think they can police a skill game lady liberty is wearing a diaper..im so depressed..srsly..ive been a zombie for weeks stinkin of ass crack
last bit of joy I had was a nice bit of sex with a vietnamese i met at Harley Davidson Cafe the type barry would make sweet passionate love to and tell her he was good at bowling but really hes **** at sports and only was ever good at gin rummy and maybe hobbitscotch..but anyway i took her back to the bat cave when the coast was clear..chip was upstairs sleeping and my fat girlfriend was out getting groceries

..so yea

We started making out and then she tells me she never done anal have u got any lube i had no idea so im like yea i got lube and i look in the cupboards but i didnt think jello would work so anyways i go upstairs and grab some mint shampoo and we go at it but damn that **** must not be good for butt sex cus she was screaming in agony for hours saying her ass was on fire i was like nah i prolly hit it just right..damn she was crying..so anyway

hit me up if u hate howard and hero but youve still got grind on the mind...

58.2 whats stopping you from going PRO?

The answer is MONEY.

Im a pro by heart pro by nature, it pulsates in my heart, the feel of the felt, the tingle of the deal, the pocket pairs, the risk, the rush, the seedy people who stink of urine..im juust just like my dad was, he taught me everything he knew and had me playing blackjack at 6 years old. he used to make me beat up on limit games instead of do homework. he never hugged me, but he would nod at me sometimes. He said to me that if I didnt make it in poker I would be a failure in his eyes and then he would wish he had never added sperm to the pot. I eat and sleep poker in his memory (he died but still rails from beyond the grave) I dream about poker every night and I seriously think if poker was a woman I would want to get romantic with her. I have been a high stakes player also a FTPS grinder trying to get a 26\$ token to prove to my fat girlfriend I can get us back to living the high life, shes like get a real job im like wow go and work your own damn job you no prospects having bitch..I got grind on the mind

I will always be a pro, trying to get in action and living for the big games..back in the day I would tip too big mainly busty waitresses who had loose vaginas and lend 2 much cash to degens which I will never see again..next time I get bundles of cash im gonna spend it on my damn self and some of the guys in BBV

my fat girlfriend has no say in it..im like if you dont like me and my poker, dont let the door hit you shes like why cant you understand weve got a kid on the way, im about to pop how are we gonna make any moneyyyyyyyyyyyyyyy for diapers, she started making weird emo noises im like you should be the damnbread winner maybe you can be a good burglar your ass would rub out your footprints or maybe we can sell the kid to a celebrity whos looking for false-kudos she looked at me like I was of middle eastern descent shouting jihad at an airport..im broke as ****, but when I get back in action (AND I ALWAYS GET BACK IN ACTION) ima run that **** up cus the grind always finds me wanting.

58.3 About King Niche Posts - best Poker posts ever

I appreciate the kind love in here..its been a rough week for me..my fat girlfriend gets fatter by the day, I know she is pregnant but I am repulsed by her big frisky nipples. she says WOW YOU MUST THINK I LOOK LIKE A COW WHY WONT YOU COME NEAR ME?" the truth is she reminds me of another large land mammal and I really would rather masturbate than have sex. is that so wrong? She keeps hinting that I should look for a job, but she doesnt understand that I dont work for other people and id rather live on the street..

my dad never worked a day in his life, and he was just fine apart from being a chain smoker, alcoholic, having sclerosis of the liver, mild COPD, and a walking stick..I can count on maybe 2 hands the of times I went without food for a week or so.. I hardly ever went to school, but he would teach me how to play HU and said that aint no way schoolin would get me earning as much as poker..one night in a home game he he had a heart attack, the sweat was pouring down his face and he was gripping his arm, I was like Omg dad , Im gonna call an ambulance, he was IIEK UGHHHH ARGHHH, dont touch the damn phone ive got a ****ing set...now thats dedication

58.4 Beat: View:mods in general have a negative view of King Niche

i like gregorio, just not the person who deleted the sunday million thread instead of moving it to market..but no point in fighting the power when you have no say in making the rules..

it reminds me of the time i was playing in a game where some big beefcake dude with hulk hogan hair and a big vein pulsating in his neck(major tell) said he only wanted to pay the small blind all damn night..he kept saying this is my house so i make rules..he was terrible at poker and snorted so much cocaine I thought his septum would melt. so me and 4 solid regs let him just pay the \$10 small blind all night..he ended up getting it in with a gut shot against my friend and breaking him at about 3am HE WAS LIKE YEA DO U KNOW WHO I AM???????? DO YOUUUUUUUUUU KNOWWWWWWWWWWW WHOOOOOOOOO I AMMMMMMMM? man I was so ****ing tilted and I wasnt even in the hand..

this guy is way bigger than all of us so this was -ev but I was like wow how could you call that meathead? He looks at me like hes about to kill me and slams the table with his fist. I was very scared. then he starts chasing me around the table shouting your dead your so dead..my friend quickly kneels down behind him and I dive at this wrestler and he falls over my friend and we all jump his ass, stomping him like its saturday night raw..I wanted to get him in a figure four leg lock but I hadnt pulled the move in years... so I jump on the poker table and imagine its the top rope and come down with a macho man elbow..he was almost out cold at this point cus I caught him on the back of the melon.. I have never stolen a poker game in my life but cus we all felt cheated with his rigged blind scheme, I grab a handlefull of cash from the middle of the table and we share the blinds between us..the next day we were playin at a local casino and we heard he was roaming the streets with a damn shotgun..I stayed in the casino for 2 days.

BUSTO OR BURN

Oh my god.

My girl wouldn't leave. In fact, she had locked herself upstairs, like some crazy "Fall of the House of Usher" bitch.

I'm like "You better come downstairs and get the hell out!"

"This is my house!" she said.

I'm like "What the ****, horse goblin, who you think you are? I grind this mortgage day and night"

She started making weird noises that reminded me of a tracheotomy upstairs so I just ignore that ****. I got grind on the mind.

I pick up KK in the small blind and make a little raise. Some punk tries to rush me with a min-raise, so I jam him for \$29.50 and he folds. Next hand I get KK again- different suits- I make a little raise and the same guy makes the same min raise. I jam him for 48.57, and he calls with 44 and spikes a 4...OH MY GOD, my eyeballs must have looked like they were going to pop out and if they had I would have stamped on them for ****'s sake. Then I lose 8 more buyins-3 set over sets, a counterfeited two-pair, a bigger boat and...OH MY GOD, THIS GUY CALLED 3 streets of bluffs with queen high and an inside straight draw and catches a queen on the river. How can I lose over 100k in cash games and still lose at \$25NL?

OH MY GOD. KILL ME WITH A REINDEER HARPOON. These degenerate pieces of **** kill me day in day out, even when I play my best game. My graphs look like a broken ski lift; my blood pressure is high too, because I checked it earlier (171/101). I am so pissed that I'm spitting cereal at this point because I am down to 98.72 dollars. ****, that's a pathetic short stack at 1/2. I march upstairs, gunning for my girlfriend, I want to really push her out of a window by this point and I find her choking herself out with a ****ing phone cord. I want to leave her, but I guess I have to save her so I untie the chord and her tongue was hanging out... she was the color of a dolphin, and I couldn't help but notice how I was glad I had not impregnated her womb up to this point. So she starts croaking some kind of nonsense and she has what looks like a burn mark around her neck and says, "Look what you did". I was like WTF" Shes stars whimpering and she says she's going to call her dad and get him to **** me up (yeah right, he's fat and slow as ****). We fight over the phone being plugged back in because I seriously don't want her calling him at 3am, probably saying I tried to strangle her or some BS. I get her to promise me she will not call him and I let her stay over out of sympathy-she said she thinks she is coming on her periods. I'm like "I do not care for periods".

I go downstairs and I don't even want to play poker because I am so upset now. I cried quite hard, I must admit, to some R 'n' B, which was quite good for me because I really thought after that I could grind the 98.72 dollars. I made myself a mayo sandwich and sat down to think about bankroll management.

I didn't know what to do with the 98.72 so I went to blackjack, and decide if I double up I'll fire up 4 tables of 50nl and grind until dawn. My logic is like: "OK, fire the whole 98 with the first hand, no ****ing around." I bet 98, I get dealt J5 . The dealer shows A-, and it says "Do you want insurance?" I'm like "Oh my god" and the light flashes RED and he flips over BLACKJACK, on the first go!!! OH MY GOD! I pick up a mug of cold coffee and throw that **** at the wall and immediately I am so angry at the stain...I'M ****ING BUSTO AGAIN! What's going on...I sell my girls poodle, my action men, an exercise bike and I'm still busto, and all my credit cards are maxed out and I don't even know what to do. I need mortgage cash, and at least some throwaway MTT punts.

Next thing you know there are headlights pulling up on the driveway, its 4:39 am, what the ****? It has to be the cops!!! But nope its Fatty Mc Fat Fat- her papa showed up and I'm thinking she is a

catergorical lie bag bitch. He comes walking up to the door and I don't know why I did this but I switched off the light (probably a bad idea), and hid under the table in the office, hoping he would go away. He knocked again, much louder this time, and I was thinking that I wished I was on the roof to drop something on his head, like my girlfriend. So I'm hiding in the office and eventually my girl comes downstairs and I hear them talking he sees the mark on her neck and he says "DID HE DO THAT!?" and she didn't say anything, she just changes the subject like a teasy bitch!!! How can you sit on the fence about strangling yourself?? I shout through the door that his daughter is a crazy mental bitch who tried to kill herself probably over a poodle and that's when he hears where I am and shes like "No, Daddy don't!"

"HAS HE FORCIBLY ENTERED YOU!?"

"No daddy nooo!!", but not even her largely obese frame could hold him back. I'm quite scared at this point because he is fat and slow but a cunning fat person.

He starts barging the door and I'm counting my outs. He called me a tinweasel? I'm thinking "What the hell, this King Ralph-looking mofo is dissing me?" I'm mad now and ready to go like a red rag to a bull, and ready to fight them both even though I promised never to hit a woman. But after everything she put me through I decide to yell that I sold her poodle for poontang, at this point he breaks the door down with a grunt and I'm sure he farted with the exertion...I was disgusted. We were heads up and as far as I was concerned I was raising even without the button. I step to him and I throw a left that misses and he hits me with a right, but he was really sluggish and I managed to catch him with a haymaker, and that's when he did the most ridiculously looking roundhouse kick for a fat person I have ever seen. I catch his leg and spin him around-I decided at this point that a fist fight was probably -EV because of his flab and my small fists so I decided to **** him up with a paper weight (which I did). It only took 4 hits to the head for him to be flat on the floor and then I sat on his back and gouged his eyes out. I'm like "THIS IS HOW BUSTO FEELS!" He's screaming louder than his daughter at this point, "CALLLLLLLL THE SHERIFF", that's when my girlfriend hit me on the ****ing head with something, I don't know what it was but it made a loud BONG noise. I turn around and I really don't know why I did this but I kicked her in the vagina. I WAS SO MAD I SAID "OK, THATS IT...YOU EITHER STAKE ME, LET ME HAVE YOUR BANK ACCOUNT SO I CAN BONUS WHORE OR I WILL KILL YOUR FATHER." She doesn't even know what bonus whoring is? I explain I need new poker accounts to get the bonuses, "Don't you understand?" She says "No" because I spent all her money once before-I Try to explain it's different because it's basically like getting rakeback for a month but she still doesn't get it... no college-degree-having bitch. I'm like "Razz would suit you, bitch," so I go upstairs and I don't know why I did this- I think maybe it was because variance had never been so cruel to me, the most ridiculous swings ever- worse than Brian Townsend and Gus Hansen put together. So I'm thinking of complete dark thoughts and I go upstairs and sit there and stare at a piece of wall paper vaguely aware I am dribbling...and then I set fire to myself. I woke up in ER with 33% (flush draw) burns, and the doctor told me I was lucky to be here or some uplifting ****, all I could think about was being busto.

Not being able to edit and proof is so tilting me.

whoever said people should not be able to change ""mid-contest"" is also stupid because the contest deadline hasnt even closed yet. WTF. I just want to changge a few things cus i foundout my editor was dyslexic,things are visually bugging my eyeballs, whats wrong with that? damn now I want to maybe drop a toaster in my foot spa..I was really ahppy, chilli out, sitting here as solitary as an oyster and you mofos have to get righteous about this..

its not like I want to add an extension novella or get stephen king to come round with his big glasses and blackmail him into helping me by torturing him with guns and glue. I cant believe just a couple of people post and katy is swayed so easily. hey guys you are all very kind and a busto player takes this very kindly it reminds me of the time my uncle sold 6 of his gold teeth so my dad could play a home game which he won and he bought my uncle some new teeth with diamonds in..my uncle said that he was responsible for the ""ice grill"" but I dont know about that..all I can say is if you people want me to sit and play my heart out for you then I will and the amount of money is irrelevant..I would play for BBV the same way whether it was \$10 or \$10,000 and i'd put my blood sweat and piss into it.. but only if BBV wanted

me to and people know im legit and not a crotch monkey..if i lose repect and my reputation from poker players you might aswell whisk me into an omlette

I was told once that folding kings pre flop is -ev in the long run because of the amount of times the person will not have AA ..I think there are exceptions and sometimes its thr right move to fold..but if you have a habit of doing it you are losing money over time and will never get the crocodile shoes.

58.19 KING NICHE - Why the fascination?

biggphish i dont expect anyone to send me cash or be fascinated by me..and i have never been special in the eyes of anyone but my father and that was only ever at the poker table because he said I had the ungar wonder and he wanted me to live his dream because he knew he wouldnt live long enough with his chronic angina and 3 pack a day habit and he loved to drink and go out with men late into the night while my mom was back and forth to england throughout my whole life sometimes taking me sometimes leaving me..

..its kind of sad in a way..all my friends used to play catch with a baseball in their backyards and get shoulder carries..I used to get heads up training and a red botty for not working out my outs and picking up the right tell... I have not had much cash in the last year or so but when i have ive always tried to put people in actions..sometimes ive gone broke as soon as ive had cash because i saw someone without even a single buy in for a MTT so i put them in it cus I know how it feels to slurp and burp dirt..poker players are all I have...my fat girlfriend just doesnt understand me ..she wants me to be a weak squirt im likeno im a poker player bitch its a wrap..

I think I would probably be dead if it wasnt for BBV..some of these guys believed in me and they werent like some of these railbirds who just wanted me for something like a meal or a ciggerette or a buy in..they would follow me to different casinos in vegas asking if they could be my friend ..i always said yes..every poker player needs a friend and some of these guys were trying to stay of the crack and dick..I gave them a warm drink and a bit of company.. my dad always said poker is an isolated world of chaos and poker players know the gutter often more than anyone else..he used to say poker players need to stick together or else they will get blown apart..

the amount of times my dad came home and said another reg had blown his head off..i was only young ..i didnt understand..standing their in my pjs looking at my father for answers..i always remember one night he came home and he was covered in blood i peeked through the bathroom door and he had blood on his arms legs, face, in his hair..he saw me standing there and dragged me into the bathroom..he said if you ever tell anyone about this I will weigh you down with stones and drop you off a bridge...i cant swim and i was so scared I said i wont tell and thats when he noddod and smacked me on the back of the head...then he laughed and said you see this in my hand? it was weird and jagged and soaked in blood and looked like a tooth..he said thats a piece of somebodys skull and he did a loud laugh and i crapped myself and ran off....

I took my last 550 to 5/10 got my aces cracked by 22..maybe someone can post the hand if not check table ratings.. i feel like an empty shell of a human a bit like that guy in alien who was half man half machine and he spewed up milk everywhere then eventually had a alien burst out of his chest..i was playing some of my best poker earlier i havent had that feeling for a long time its that feeling where you just i know where you are at in the hands it like a beautiful card dance and you are the magician..I was flying on rocket water and making some moves that my dad would have been proud of he always said when i am hot i am volcanic but i never know when to quit.

..ty to those who railed me and those who donated to me..even the people who hate me and have wanted to see a train run over my head in every pot ive played or say that i ruin bbv.. one guy called me white trash tonight

..i was moving around limits 3/6 5/10 1/2 and 10/20 and playing mtts just trying to stay afloat people were telling me dont be a nit and then they were saying pull a warewolf move and then i went to 5/10 and they said where is your brm u are a donk..

my fat girlfriend saw me slumped over my pc tonight she just looked at me with her big moon stomach and said youve lost it havent you i said well yea but I did this for you and ungar i think she had a tiny bit of sympathy

58.22.1 OPEN MSG TO KING NICHE

i promised my fat girlfriend no poker but i cant see that happening..she was like dont u care that we could lose the house i just scratched my head and tried to understand maybe its because she has never lived in a parked car that makes her react differently to this..we wouldnt be the first family who lived in a car

58.23 What would King Niche do.....??

listen you have to get over the pain of losing..yea it hurts but **** it..20 bucks wont even get the stains out of your shorts..just kiss that money goodbye and make sure you do shadowboxing b4 sessions and pull a swamp thing move at 25c/50c PLO if you are feeling frisky enough..you can nit it up and try and build but by the time you get a decent roll playing that way you are probably going to need new hips i dont understand players who never take underrolled shots it never made sense to me..my dad always used to say to me stick your ****ing balls on the table little man shuffle up and buckle up... you can nit it up when you get a few thousand sure if thats your nitty style but nitting it up with 20 dollars is like sticking at 12 in BJ..you gotta swing from ropes in this jungle and risk falling on your face from a great height...keep swinging you will miss alot but eventually you will stick like crap to a blanket..you are trying to freeze to early and playing what my dad called premature jaculate poker..so swing hard try to land in the tops of the trees with the monkeys ..once you get high enough in the tree you can sit still and just drop a few deuces for awhile..

gl killer_kill

58.24 king niche

im still here guys its been a tough few weeks for me bills bills bills ..ive felt like failure at times but thats when ive gone into mind grind and played heads up against most noseleed opponents in my head..my fat g/f is about to punt a baby outta the ass and im still struggling to get in action .. i never really recovered since hans vogl sucked out on me I shoulda just stayed at wcgriders table as he had more leaks than a pissy sieve paul wassicka was running scared also his range is pinnable..right now im just trying to sell some of my fat g/fs cats but these days people dont even sell cats for free.. i hope bbv is ok and i hope I have another run at the nosebleeds soon..i think 10/20 was a bit high for a 800 roll should have played it safe at 3/6 but it was hard to stay away from 5/10 with all the people 4 bet bluffing..i never feel alive unless im taking shots and my heart rate is up..bankroll management is for people who think in pension payments..i play for today because i want to skinny dip in that pool b4 im a wrinkly walnut

[illegible]

HEAD IN A TURD..I FELT LIKE SUCH A *****ING DEGEN I COULD HAVE PLAYED 5/10 with 13k so easily and made decent rake and maybe found me some new pussy easily when i tell em im back to being a pro...first i burnt my hand on the stove on purpose omggg i was so wasted i went out in the backyard stark naked i started climbing the trees and just trying to get back to nature and forget the damn poker..loking back id lost my damn mind that pot had elctrocuted my noodle..it started to rain and i looked so pathetic i couldnt even get a crack whore to stay with me and I had a big hemmaroid and my white pastey body stood out under the grey sky i must have looked like a sagging bag of milk...

..all i wanted to do was grind for 18 hours a day and fester in my own filth and live the life of a poker pro grind on the mind till i die make my tomb a house of cards.. i wanted to give up so bad.. now i was busto and i couldnt see a break in the clouds or any hope the next day when i woke up i had to masturbate just so i could get out of bed i browsed 2+2 and went back to bed for 3 days..I didnt even get up to go peepee i just pissed the bed because i was busto and nothing else mattered..i kept reminded myself that atleast i nwasnt the fat sloth puppet in that movie seven where he gets locked in a bat cave and is made to eat spaghetti till his guts spill open..but this didnt make me feel any better.. whats urine and the smell of a cheesy ritz cracker ass crack when you lost a 26k pot? i didnt give a ***** about pissing on myself by that point..i could of had a milllion dingelberries attatched to my ass i wouldnt have cared...i was so upset the lowest point for so long even lower than when i talked myself out of a guy giving me a BJ for \$100 I just couldnt do it..i felt lower than when my mom force fed me flowers..I almost killed myself on day 2 when metallica came on the radio..i dont know how I ever made it out alive..i always swear to this day it was just the hope of being back in action someday..it lifted me out of the bottomless pit and gave me reason to live and breathe..never quit guys..not even when they are dragging your face through the *****..there is always someone worse off than you..like a guy with a glass eye with a fish in it....keep grind on the mind

58.26.1 Degen Stories....

There was a guy who used to hang around the casino and play roulette his name was STAR..everyone used to crack jokes and say he was proolly a flamer with a name like that..he was kind of old the skin on his forearms was very loose...he had a tattoo of a teardrop that was all blurred and looked like makeup..one night I had won 21k playing 5/10 and I left because a fish left and the rest of the table were nit on nits...so im walking past the roulette and I see STAR standing there..he always had an old ass walkman and a roy orbison tape he used to like listening to blue bayou when he was winning and crying when he was losing..this night he lost 14 spins in a row on black and missed so many single numbers it was disgusting..I said Hi STAR hows it going..he did not say a word.. I could hear that song crying coming through his big ass fluffy tyre headphones these were like the ones from the 80s that the kids from ET had ..he doesnt respond and just stares into space and his cheeks go all red and then they puff up and he makes some weird random grunty tilt noise and a big glob of spit hits the roulette wheel..then he takes a deep sigh and says If I lose this I am going home to kill myself..im like WTF STAR...He says this is it..ive been gambling 40 years Im almost a dead man..i have cataracts..my hips are gone everyone thinks im a qu eer..im like who cares if people think you are q ueer..it doesnt mean you are!.he said but I am a qu eer..this was a tough moment..He puts his last bet on.. thousands spread over numbers..I give him an extra 1k on number 3 because thats my number and pat him on the back..i say come on lets go as the wheel spins..we miss everything..and just to top it off his tape starts getting chewed up roy oprbison starts to sound like a choir of chipmunks.. he opens up his walkman and tape goes everywhere and then he manages to treat it like trip wire, he hits the deck knocking over all the chips on the way down..then he starts crying and punching his walkman saying it killed roy..people look embarrassed..He got up and called a random woman "a slut with herpes probably"..I escort him out of the casino and he says I wish I was a terrorist so I could

bomb that place then come back and piss on the ashes..im going home to kill myself bye.. .im like heh as he walks off ..cya STAR grind on the mind!!!! next day I find out he blew the back of his throat out with a glock 40

58.27 Looking to try to survive the grind

grinding for me is the only way in life in the mornings I wake up and take a deep breath a sip of cough meds and say today im going to be in action..i dnt get in action most days but thats living the dream..thats the attitude you have to have to be a winning player..sniff the cards if it helps..listen i dearly miss vegas my heart is all over vegas, the lights the buzz, the hobos, the skanks with gap tooth..i miss them all even the vaginas with the guts hanging out..the only time i feel anywhere close to being back home in vegas is when im sitting with no underwear reading BBV...damn i love those guys..

.if you want to goto vegas make sure you have grind on the mind make sure you dont get hustled and never take dick in the butt for chips..some people will probably try to murder your life and bury you but you cant let that scare you..my dad almost got buried in the desert once for hitting an overset on some guy called "kuck" but he managed to drag the guy in the hole turn the spade on the guy and squash his windpipe he said after that he went back to one of the few legal brothels in vegas and watched strippers pick up 50 dollar bills with their butt cheeks..i was probably at home hungry..but i never felt bad my dad had a job to do and his life was poker..thats what you have to do to be the best..youve got to be able to rambo the cash games and when your brain overheats and says TILT TILT..just say NO brain I will not tilt or punch myself in the face.. i will flip off the dealer and go get a hotdog..thats poker..and dont forget to buy the crocodile shoes

58.28 Traits that make up a bad player/traits that make up a good player.

a good player is not a nit, a good player takes risks. a good player takes shots a good player can look you in the eye and think wow you really look scared I call you dont sit back in your chair like that.. a good player will do anything to get in action including run to a vegan restaurant for a pleyer or sleep in his car...a bad player cannot soul read... a bad player will never know what questions to ask at what times for info..a bad player will cry like a pig when he gets outdrawn..a bad player will post hand histories and weep..a bad player will say its rigged like miss cleo did a hex on the cards..a bad player will shove all in and **** their dooks.. a good player knows when he is beat..a good player walks the tightrope makes warewolf moves a good player wears the crocodile shoes

my dad always said listen up niche..sometimes the hardest play is the right play and sometimes youve gotta be the camel going through the eye of that needle..most players choose the safe route and lose the most value..never be that nit..choose your line execute your line ..never be scared money..never be scared to bluff off all your chips if you sense weakness...always make people scared to make thin value bets on the river because they know you always rambo the cash games and make their hearts sink and their bowels move.. be ungar..and dont mess with too many sluts..

58.29 Damn, I'm Broke.

Listen up true 2 its ok to be broke and out of action living close to the toilet bowl, ive been there ..ive lived in my car, at a homeless shelter, I even shared a sleeping bag with a hooker who had a crazy face..listen man just do what u can to get in action, you gotta jam the action sell anything you can that is worth anything..tv? sell..paintings? sell ..jewlrrry? pawn that **** even ya wifes wedding ring that ****s only a symbol if she complains just tell her she should not be a shallow material bitch who needs a flashy ring people in your family should take hits for poker..my fat girlfriend never understands shes always like how can you play that sit n go when we need the cash to have hot water..im like wow bitch water doesnt have to be warm how spoilt are you get outta my sight..anyways man just save up what you can but by bit and then dont be a nit just goto to say 1000nl and try and triple that **** so you can sit pretty and be a baller maybe stake a few of ya busto buddies..hell i wanna get in action so my bbv family can come with me and eat shrimp and dink a waitress in the pucker

seriously man pm when you want, and i swear to you when i get back in action I will put you in the game cus I feel your pain, like my dad felt the pain..and theres nothing worse than a poker player out of action..its the worst sight imaginable..it just sucks the spirit out of a poker player and they sit there in the chair looking like a wax doll staring at the closed curtain not realising there is a wide sky behind it..you gotta see the bigger picture and always have faith that you will be back in action..you gotta have faith..and never have fear..ive been busto so many times eating sawdust sandwiches, stinkin of ritz crackers but I always bounce back and rambo the cash games cus ive got grind on the mind

58.30 Want to say sorry to King Niche.

your not the first person to jam my trap door when im trying to help a player who is grinding in the dungeons of poker..your not the first person to eat my ritz crackers while im outside pissing on a snowman..my good friend larry longlegs decided he would drink a bottle of henny and spew 13k of my money playing limit holdem one night i confronted him and he started giggling he was drunk as hell grinning at me with his buck teeth..i threw a poker chip at him and it smacked him in the forehead we got to fighting but i was no match for his big spider legs and i had to tap out.he fell asleep in a bathtub covered in vomit (his vomit) and piss (my piss)..we were buddies the next day and he paid me back but in this poker game you dont mess with peoples money especially when they give you a helping hand in hard times. thats like giving your g/f herpes after she shaves it especially for you.

in poker your word is bond, even if you look like shrek and have a club foot, if your word is good you will get in action and have a big poker family and then you can build your empire..your word is all you have in poker..my dad used to say to me "niche, guard your poker reputation like its your ass hole in jail" and i never forgot that..when you are king of the hill life is good, but when you fall **** side down on a cactus thistle, who is gonna be there to pick you up dust you down and say "its ok my friend its ok ive been busto like you ive licked the slime off the toilet walls.. ive paid 4.99 for a handjob and ive lived on nothing but peanuts..here is a buy in for the sunday million i believe in you am I my brothers keeper?"

id take a poker family loan over a bank loan anyday..only true poker players with grind on the mind understand this we are glamorous underachievers who chase beavers and big pots and we tip the dealer a chip and the waitress the dick because thats what lifes about..we arent here in the forrest like squirrels after the berries, we are going for the big nuts..your not a poker god until youve jumped off a diving board in the hills wearing nothing but crocodile shoes while a chick flicks her bean poolside...we dont take our eyes off the prize..ive had it, and im going to get it again.

but it took guts to post this and thats why i forgive you for blowing my money at PLO.

keep grind on the mind

58.31 RapDurrerr picture thread.. check out the house!

very nice raptor and durrerr

youve gotta play hard to get a place like that and that gets you my respect. I once had it and lost it but im going to get it again including the crocodile shoes and elephant foot umbrella stand. one day your grinding on a 5'3 asian woman who loves you for your money the next day your in a public restroom having a shave while a hobo clips his toe nails right next to you at the sink. thats poker.

ive been playing heads up since I was about 6 and ive never wanted to do anything else. well i did want to go into space once and maybe sumo wrestle but youve got to be fat for that. good luck to you both and keep grind on the mind.

58.32 Female player's introduction + 10/25nl Live :)

I shove all day on that crotch monkey and sleep like my baby boy chip niche,he was trying to run you over like you were jen harm I am glad you came to the right read I just hope you did the fist pump funky chicken..

i like a fiesty female poker player i have dated many in my time but now im stuck with my fat girlfriend who hates poker.. she has the voice of a horse goblin a dangly vagina and stretchmarks like the ripples of frogspawn.. but you cant have it all..

i used to play 200/400 and crush wear the crocodile shoes and play naked fooz, but now im running around with my poker family playing 90 man sit and gos trying to buy a seat back into the big game..thats what happens when you lend cash and then the borrower goes to jail because he puts his dick in random places..

I have had offers to kill him and mount his testicles on the horns of a dear because I am owed many favours in the poker world but I dont like violence..when i was a child my father threw me down the stairs and he would slap me in the tits..i will never hit my own son but when he is 8 im taking him to vegas to start a new life

i always thought the day was overated all the best underground games were played at night with a moon just outside the window and a hobo jacking off in a sleeping bag in a back alley..ive been a pasty vampire for most of my life..but poker comes first and its best to rob pots after sundown..let the tubby lard buckets slurp their sodas..what do you care go run around the car park.. i dont have much muscle, but ive got a poker family and some of them have shotguns..but i hate violence...keep grind on the mind

58.34 TILT

i always found TILT was the grim reaper looking to hook the scythe right into my melon..sometimes you gotta embrace tilt scream shout punch and kick sand in the eyes of an imaginary leprachaun..sometimes you gotta spill their drink put a potato in their tailpipe or even wrestle them.. but listen the true players can control it..i cant control how mad i get I have set myself on fire and needed stitches in my shin when i tried to van damme kick a coffee table..you have to find what works for you and what tilts you the most everyone is different..my good friend charles spews like no other because he has sudden onset impotence and cant jack it...if you dont wrestle this demon and sit squarely on his face you will be busto forever..imagine being where you are now in 30 years still doing the same thing..how would you feel...id feel like a squirrel with no nuts

if I had 10k right now id be 25 tabling nl400 with no stop loss and making me some cloutier cake

58.36 Proverbs for the new year

As soon as you get 3k this year just put your whole roll on the table and make some warewolf moves..ive got a debt to settle with hans vogl and some bluffs to run on peter eastgate..does that asian girl with the big head still play at FT poker?

what ive gotta remember this year is that you only get one life and then you are a ghost wondering around a church yard wearing a cloak..i dont want to be the guy on his deathbed who says I made 3k a year grinding 25nl do i get the nobel prize.. OFCOURSE U DONT YOU *****ING IDIOT..id rather launch a rocket propelled grenade out of my corn hole than grind 25nl my whole damn life..give me the cheese or give me deceasee..im not going down like a sumo in a swimming gala..

im going down swinging the nun chuckers and if I lose half my face so be it..i can buy melted plastic and aslong as I have an eye I can grind..when will people realise that poker is about crushing the opposition and taking shots..poker players always tell me hey niche i feel dead inside..thats because you dont stir the blood with some underrolled shots...why do think chip reese kept walking along that cliff edge...its because he got a better view from up there..and atleast when you fall off the cliff you can feel your heart in your mouth all the way till you hit the rocks blow and your brain turns to pudding..

keep grind on the mind guys

58.38 Beat: Got sent to prison, didn't do it

Sorry to hear about your raped ass... i know some prison guys who have had their guts ripped out with sharp plastic toothbrushes and had their innards pulled out like a string of sausages. i never been to jail but i heard you can get killed over a borrowed chess set and if you show weakness your gonna get fisted by the great white ape..

.. i know a guy who used to play holdem at the palms guy lost 37k one night when his queens full lost to quads...he ended up strangling a cab driver outside his home then went inside and shot his grandma in the birdcage with a shotgun..i sometimes wonder if he still plays poker in jail.. guy was good short handed.. my buddy bob wire knows his cousin pretty well..he said last time he spoke to him he said he was doing extacy to dull the pain of the rape and his bum hole looking like a slinky..i heard they have some good poker games in the pen and if you know a good bookie on the outside u can bet on the NBA with 100k credit and he might even arrange a slut to blow your bone down the phone.

58.39 Reuters: Full Tilt Poker, Pokerstars and Absolute Poker charged with illegal gambling

This makes me sad and very angry..me and bob wire had a nest egg on FT and now howards gone and got arrested for fraud..everyone shooulda known he was the nitty backseat criminal type..who

remembers that clip of howard kicking it with danny negreanu at the buffet? daniel had a crazy centre partin and howard was sneakin the sandwich in his pocket.
this was way before daniel called his sister a slore.

I feel sorry for anyone who has a decent grip stuck in the elevator. Im very upset about this and im mad as rabid cat right now..poker players dont deserve this crap. we should be prized above farmers and nurses. they stack up blankets. we stack chips. They drive trolleys we drive whips and ships if you fly like ivey.

keep grind on the mind guys. they cant hold us down under our own jurisdiction we gotta fight back somehow. we need someone like doyle to help us. hes been in the game for 300 odd years knew bill hickock and he should be the face of our campaign. no **** my fat girlfriend looks like his son todd.
